2 RED ARMIES DRIVE THROUGH GERMAN LINES

Russian Troops Reach Bank of Luga River West of Novgorod.

By The Associated Press

[illegible], Jan. 27—The Russians reached the bank of the Luga river west of Novgorod, Pravda dispatch reported today as the Leningrad army of Gen. [illegible] Govorov and the Volkhov army of Gen. K. A. Meretskov continued to smash from opposite directions into the German Chudovo salient.

The Luga is only about 10 miles east of the Leningrad-Vitebsk railway, one of two remaining railways radiating southward from Leningrad that remained usable for German use.

The Pravda dispatch said three German regiments were defeated in a clash on the Luga.

A sudden, freakish, warm thaw has turned the Russian-German battle area below Leningrad into quagmires of muddy roads, unlocked streams and flooded rivers, front dispatches reported, but the Red armies under Gens. Leonid A. Govorov and K. A. Meretskov kept up their great northern offensive.

The weather, the like of which apparently has been seen in the Leningrad area, Russian troops drove to clear the last remaining 30 miles of the Leningrad-Moscow trunk railway still in German hands and make possible resumption of direct rail traffic between Russia's two largest cities.

Nazi Bases in Peril

The rail junction towns of Tosno, Lyuban and Chudovo are in deadly peril from the advancing Soviet forces, dispatches said, and it was difficult to see how all of them will be able to remain in German hands another 24 hours.

(A London broadcast, quoting an unofficial Moscow broadcast and recorded by CBS, said Soviet forces "have already broken into Chudovo.")

A front line dispatch to the army newspaper Red Star said the freak thaw was giving Soviet forces much trouble south of captured Krasnogvardeisk, where army engineers are working day and night to rebuild sections of the railway to Pskov which the Nazis dynamited in a desperate attempt to halt the Russian onslaught.

Krasnogvardeisk's capture was regarded here as one of the Germans' worst defeats of the Leningrad offensive.

The newspaper Izvestia reported that some of the houses there had been blown up or burned and that many of the younger residents had been taken to Germany.

Some 250,000 Nazi troops below Leningrad are faced with entrapment.

FINGERS OF DEATH REACH INTO SKY. German planes raiding Bari, Italian port, got a hot reception when they ran into the brilliant streaks of light caused by thousands of tracer bullets from anti-aircraft guns. The heavier, wavy streaks were from flares dropped by the Nazi raiders. In spite of the darkness of night, the gunfire so lit up the scene that even the skyline of the Adriatic city etched itself on the picture. (U. S. Army Air Forces photo.)

PLANES BLAST 14 JAP SHIPS

Air Blows Take Heavy Toll of Vessels from Foe's Supply Line.

By The Associated Press

American bombers have sunk or damaged 14 Japanese ships, ranging from a minesweeper to a big freighter, in new assaults on the enemy's long supply line to its Pacific war bases, allied reports said today.

Ten vessels were hit by Navy and Marine fliers in the third and heaviest blow this month at shipping in the port of Rabaul, pivotal Nipponese base in the southwest Pacific. The Japanese lost 24 to 28 planes in an unsuccessful defense of their vulnerable New Britain harbor.

A small freighter was destroyed in another allied raid on the Admiralty islands, northwest of Rabaul. In the Far East, 14th U. S. Airforce Mitchell bombers sank two 1,200-ton freighters and a minesweeper off the East China coast.

The latest strike at Rabaul brought the enemy's cost of maintaining that base to at least 26 ships sunk or damaged and more than 350 planes destroyed during January.

Results Are Revised

First reports from Gen. MacArthur's headquarters on the raid last Monday listed five cargo vessels and a tanker sunk and two cargo ships and a tanker beached.

Dispatches from New Georgia in the Solomons, site of the raiders' bases, said, however, Navy torpedo bombers alone had sunk or badly damaged five cargo ships at Rabaul's Simpson harbor, including one vessel described as 8,000 to 10,000 tons. Marine pilots accounted for four ships in adjoining Keravia bay and set a tanker afire.

In contrast with recent statements by allied pilots that the Japanese still had their "first team" at Rabaul, Associated Press War Correspondent Vern Haugland quoted fliers returning from the attack Monday as saying "the Jap pilots today were flying like a bunch of high school kids."

American invasion forces at Arawe on the southwest coast of New Britain, found no sign of the Japanese when patrols extended far beyond the beach perimeter.

Fighter planes kept up strafing attacks on enemy soldiers trapped between American and Australian troops southeast of Japanese-held Madang in northern New Guinea.

Hit Madang, Wewak

Both bombers and fighters pounded Japanese positions in the New Guinea coastal sector hinged to Madang and Wewak, farther north.

Allied troops made progress in three fronts of fighting in Burma in separate drives directed at the Japanese port of Akyab on the Mayu peninsula; at Chindwin river communications in the Chin hills sector, and at clearing the Hukawng valley in the northern jungles.

Chinese soldiers are battling the Japanese in the Hukawng valley in the allied effort to extend the Ledo road to the old Burma road into China. In a frontline dispatch dated Jan. 22, Associated Press War Correspondent Woburn Wiant said fall of enemy strongpoint of Taiphaga was imminent.

February Ration Point Hike Set for Most Cuts of Meat

By The Associated Press

WASHINGTON, Jan. 27—One to two-point hikes in the February ration point values on most cuts of beef, lamb and veal were announced by the office of price administration today.

More brown stamps will be required also for all types of cheese and the values on pork loin cuts will be one point higher next month. The ration cost of all other pork cuts will remain unchanged.

Butter continues at 16 points a pound but there will be slightly more available, OPA said. Lard values are advanced one point to three points a pound.

The new schedule, effective Sunday, Jan. 30, calls for two-point increases on beef steak cuts, with revised values ranging from eight to twelve points a pound. Most other beef cuts get a one-point boost.

For veal, lamb and mutton cuts, one or two-point increases are fairly general.

Cheddar cheese goes from 10 to 12 points a pound and cream cheese from eight to ten points. Swiss, Munster, Bleu and other similar cheeses are up four points to a total of 12.

With the exception of oysters which continue at present levels, all canned fish is reduced from 16 to 12 points a pound.

Dried beef is raised two points to 16 a pound, while two-point cuts are ordered for canned pork sausage, beef tongue and Vienna sausage.

Sliced dried beef in bulk gets a 14-point value, up two points.

Explaining the boosts in meat point values, OPA said the total retail supply for February is estimated at 1,400,000,000 pounds, while the January total was approximately 1,600,000,000 pounds.

Of the amount available for next month, pork constitutes about half the total, at around 750,000,000 pounds, the agency said.

"I want to stress the point," said Price Administrator Chester Bowles, "that we are making sure that there are enough ration points to buy up all the meat available to civilians in February.

"We would rather take the chance of having too many ration points in the hands of housewives, which may cause possible local shortages of some kinds of meat, than to have any waste because of insufficient points."

Pork loin cuts—such as roasts, center and end chops and tenderloin—were raised a point, OPA explained, because these choice items are becoming relatively scarce in some parts of the country.

Excessive consumer demand caused the hike of cheese values, OPA said.

BRICKER STRESSES FREE ENTERPRISE

By The Associated Press

WASHINGTON, Jan. 27—Gov. Bricker of Ohio advised congress today he believes the primary responsibility for the post-war economy rests with private enterprise, with a minimum of governmental interference.

"Political ownership or management of business, of agriculture, of commerce and of industry, has no place in our free economy, and the public interest does not require it," he said.

His views were expressed in a letter to Chairman Lanham (D-Tex) of the house public buildings and grounds committee, now studying post-war problems. Bricker had been invited to appear before the committee.

"I believe," he wrote, "that the most effective way of building confidence and providing high employment is through a free and constantly expanding agricultural and industrial system. This does not mean that government will cease to protect the public interest. Regulation will be necessary to prevent abuses. ***

"While the primary responsibility of providing jobs should rest with private industry, government must also supplement the job-creating efforts of private enterprise through worthwhile public works wherever necessary. I believe that it is the duty of state and local governments, as well as the national government, to build up reserves for post-war needs."

Bricker said Ohio has a surplus of $74,000,000 in its treasury, of which $24,000,000 has been set aside for post-war construction of buildings for welfare and educational purposes.

"Generally speaking," he said, "the states will be in a better position to carry the burden of post-war public works than the federal government."

Purple Heart Goes To Marion Sergeant

The Purple Heart medal for wounds received in action Jan. 6 has been presented to First Sgt. Donald L. Buckley, son of Mr. and Mrs. Fred Buckley of 652 East Center street, who is stationed in Italy.

Although his parents had received word from Sgt. Buckley that he had been wounded, a notice from the government arrived only Monday.

According to a letter received by Mr. and Mrs. Buckley, their son has been released from an Army hospital after treatment of injuries suffered when a land mine exploded.

Sgt. Buckley had been in service one year on Oct. 1, and has been overseas since September. He was last stationed in this country at Camp Gruber, Okla.

He is a graduate of Harding High school. After his graduation he was employed at the Marion Steam Shovel Co. His wife, Mrs. Patricia Buckley, and their 18-month-old son live with Sgt. Buckley's parents.

TWO-THIRDS OF ARMY TO BE OVERSEAS IN '44

Many Facilities To Be Closed; Men in U. S. 12 Months Ordered Reclassified.

By The Associated Press

WASHINGTON, Jan. 27—As present plans shape up, two-thirds of America's steadily growing Army will be at overseas stations by the end of this year.

That was the word today from War Secretary Stimson as he announced plans for closing a number of domestic army camps during the next few months and the transfer to combat units of a substantial proportion of the soldiers now assigned to administrative duties.

The overseas expansion program will double our forces abroad. As of the end of 1943, only about a third of the Army had been sent outside the country.

In addition, a number of officers over 38, particularly those commissioned directly from civil life or in the national guard and reserve corps, will be placed on the inactive list because "no suitable assignments are available or in prospect either at domestic or overseas installations or establishments."

Marks Shift to Offense

"The readjustments were dictated generally by the progressive shift of army operations from the defensive to the offensive and by the growth of air power," said Stimson.

With the peak of the training program past, the Army already has placed a number of facilities on a stand-by basis, or announced it intends to do so. The air forces have relinquished 69 or more establishments, and the ground forces have begun to close up some training camps and other facilities, including Camp Atterbury, Ind., Pine Camp, N. Y., and the induction center at Fort Hayes, O.

Stimson asserted "the Army will no longer need all its present troop housing facilities and it will be necessary to place a number of camps, posts, stations and other installations on a caretaker basis, and to return many of the civilian installations and facilities which previously had been taken over by the Army."

He announced the war department has ordered physically qualified men in all branches of the Army who have a total of more than 12 months service at fixed stations or "overhead activities" in the United States to be reassigned to combat units "or mobile activities ultimately destined for overseas service."

Younger Men First

Enlisted men under 30 will be reassigned first according to their length of service in the United States, and they will be followed by those over 30, in order of age—youngest first. These reassignment orders will not apply to men who have served overseas at some time since Pearl Harbor, or to men with highly specialized skills which cannot be utilized overseas.

"Replacement for reassigned enlisted men," said Stimson, "when necessary, will be made first from civilians, next by women's army corps personnel, then, in order, by men permanently disqualified for overseas service, men who have served overseas, recently inducted men with physical handicaps, enlisted men with less than 12 months service in fixed installations in the United States."

As to the officers over 38, Stimson said "there are many" for whom suitable assignments cannot be found, and that "Army commanders have been notified that the retention of such officers on active duty is no longer necessary or desirable in the public interest. Therefore, if they cannot be reassigned they must be recommended for relief from active duty. Final decision in each case will be made by the war department."

Leningrad Completely Freed of Germans

By The Associated Press

LONDON, Jan. 27 — Marshal Joseph Stalin announced today that Leningrad had been completely liberated by the 14-day twin offensive of Generals Leonid A. Govorov and K. A. Meritskov and that the Nazis had been driven 40 to 60 miles from the city, with more than 700 nearby towns and villages freed.

Stockholm Reports Nazis Try Allied War Prisoners

By The Associated Press

STOCKHOLM, Jan. 27—The Berlin correspondent of the Stockholm newspaper Dagens Nyheter quoted informed German quarters yesterday as saying trials of American and British war prisoners—apparently in retaliation for the Kharkov trials of Germans accused of atrocities in Russia—now are in a "preparatory stage."

Fourth War Loan Total At 30 Per Cent Mark

Big Day's Sales Push Figure Up to $869,996; Prospect All Set for Rally Tonight.

Marion county purchases in the Fourth War Loan gathered new momentum yesterday when sales totaling $130,883.75 were reported to the headquarters on North Main street.

This pushed Marion county's total up to the $869,996.75 mark or a shade over 30 per cent of the $2,838,480 goal the county hopes to reach by Feb. 15.

E bond sales, the type of bonds now being pushed for individual buying, amounted to $42[illegible]

[illegible]218.75 of yesterday's total and brought the E sales total to $381,[illegible]383.75 or more than 42 per cent of the $819,000 E bond quota for the county.

Meanwhile, final preparations were made for a big bond rally tonight at 8 in the Prospect school auditorium with officials of the Marion County War Finance committee and the Harding High school a capella choir scheduled to take part in the program.

Prospect bond workers, headed by James Lauer as chairman, are building their Fourth War Loan sales efforts around tonight's rally, and predicted a capacity crowd would be on hand.

Drive Leaders to Speak

H. C. Secrest, superintendent of the Prospect schools, will be in charge of the program, and speakers will include Robert E. Wiate, Fourth War Loan chairman for the county, Harold J. Grigsby, chairman of the payroll deduction division of the county War Finance committee, and Elmer J. Schoenlaub, chairman of the county War Finance committee.

The Harding High school a cappella choir, under direction of L. G. Jones, will have a major share of the program time. This group has appeared at previous bond rallies in several other Marion county communities. Choir members will gather tonight at 7:15 at Central Junior High school to make the trip in automobiles of a group of Marion men.

The Prospect Citizens bank will have a group of workers at the school to handle bond sales.

Plans for Bond Show

Other developments today included preparations of the Rotary club to handle its job of sponsoring ticket sales for the war bond show to be staged at the Palace theater Feb. 7 when a group of servicemen from Patterson Field stage a variety show. A $50 war bond purchase will be the only means of obtaining a ticket for the show. Rotary officials were expected to complete ticket selling arrangements late today or early Friday.

Marion County Gains in E Bond Sales

Marion county has advanced one step in the E bond standings for the 25-county area of which it is a part, the latest report from area headquarters in Cleveland this morning shows.

Marion county as of Monday was in sixth place in E bond sales, with 24.5 per cent of its quota sold. In the last previous report Marion county was in seventh place. The only counties ahead of Marion in percentage of E bond quota sold are Portage, Summit, Medina, Richland and Cuyahoga.

In total sales, Marion still ranked eighth as of Monday, the same position it previously held. With 10 per cent of its $2,838,000 goal sold, Marion county was trailing Harrison, Coshocton, Summit, Medina, Portage, Geauga and Wayne counties.

Crawford county, with 18.1 per cent of its E bond quota sold, was in eleventh place and Morrow with 16 per cent was in sixteenth place.

In total sales, Crawford county with 7.1 per cent of its goal reached was in sixteenth place and Morrow with 6.3 per cent was in twenty-first place as of Monday.

Vessels Ordered To Stay in Port in New Move in Diplomatic Break.

By The Associated Press

BUENOS AIRES, Jan. 27—The Argentine military government froze movements of the state merchant fleet today as one of the first follow-up actions to its diplomatic break with the axis, all vessels being directed to remain in port "until new orders."

It was expected, however, the lineup would not last long, since Argentine economy largely depends on movement of the merchant fleet.

(Although no reason was given for the order, it seemed apparent the Ramirez government deemed it unwise to expose vessels to the menace of any lurking enemy submarine until some provision could be made for their protection.

Three Ships Sunk

(Nazi submarines sank three Argentine ships in 1942 but no mention was made of these in yesterday's official announcements of the diplomatic break.)

As congratulations poured in, the Argentine government turned to the question of communications with Germany.

Suspension of these facilities loomed as great importance in view of the revelation Buenos Aires was headquarters for a giant espionage ring. It is believed telephone communications with Germany already have been cut.

The German news agency Transocean has been notified to wind up its affairs here by Jan 31 and it was believed the newspaper Pampero, served by Transo-

Arraignment of Briggs Set for Next Monday

By The Associated Press

WASHINGTON, Jan. 27—George N. Briggs, indicted Tuesday on charges of forgery, false pretense and use of the mails to defraud in connection with the "Hopkins letter" episode, will be arraigned at 10 a. m. Monday before Chief Justice Edward Eicher of federal district court, the Justice department said today.

Briggs, former aid to Interior Secretary Ickes, now is at liberty on $3,000 bond.

Marion Mother Answers Phone Call, Is Greeted by Son, Back from Overseas

After insisting for some time to a long distance operator that a call from Ft. Benjamin Harrison, Ind., couldn't possibly be for her, Mrs. Walter A. Shealy of 301 South Vine street, consented to talk to the party and heard the voice of her son, Sgt. Alan Shealy, who has been overseas for two years.

The call came through at 9:30 a. m. yesterday, just 30 minutes after the phone had been repaired after being out of order for several days. Mrs. Shealy said she protested to the operator that there must be some mistake because she knew no one at the Indiana camp. The operator checked and re-checked then told her the call was definitely hers.

Her son's first words were "Hello mother, I'm home." Mrs. Shealy said he hastened to assure her that he was fine and "all in one piece." Sgt. Shealy was reported wounded in action twice, the first in Marion county to be listed twice as a casualty.

The last letter received from him was written from North Africa on Dec. 21 and he told his mother yesterday that he sailed on Christmas day.

Mr. Shealy was at work when his son called and Mrs. Shealy kept the news until he came home in the evening, then, she says, "we were both walking on air." The exact date when Sgt. Shealy will arrive home wasn't known. He told his mother it would be in a day or two.

He was one of the first group of volunteer selectees to leave Marion and was a member of the first unit to be cited by General Eisenhower in Africa for excellent work. Another "first" for the 24-year-old sergeant was when he sent $75 home in time to purchase one of the first bonds sold in the Marion county "buy a bomber" campaign in May.

He was overseas two years and in Africa more than a year.

NAZIS MAKE FIRST ATTEMPT TO HALT DRIVE

Fierce Counterattacks Turned Back by U. S. and British Troops.

By The Associated Press

ALLIED HEADQUARTERS, ALGIERS, Jan. 27—The first German counterattack against the Americans and British just south of Rome, the first of the many that probably will be launched in a furious effort to wipe out the allied beachhead, has been thrown back with the crushing of German armor, allied headquarters announced today.

Men and supplies continued to pile into the strategic wedge threatening the Italian capital.

Gen. Sir Harold Alexander's central Mediterranean headquarters announced elements of the Hermann Goering armored division had been met southwest of Littoria, chief town of Mussolini's famous Pontine marsh agricultural development, in a "fierce local engagement."

The Germans left 120 dead on the field as they were tossed back. The Hermann Goering division, formerly an armored grenadier outfit, has been strengthened by new equipment to a fully armored unit. It was last encountered on the main Fifth army front. Its appearance on the beachhead front indicated it had been shifted to counter the threat to the German rear.

Battle Through Mountains

Other Americans of the Fifth army, 48 miles east of Littoria, continuing to uproot Germans, mines and meshed defenses, struggled slowly forward across flooded streams and other steep crags just north of Cassino where field dispatches said they were within half a mile of the Liri valley gateway and were overlooking the bomb-jumbled ruins of the ancient monastery town. Patrols had penetrated outskirts of the stronghold.

Some four miles farther north the French rushed down from their mountain positions on Mt. Il Lago in the Sant' Elia area, across the Secco river and the Cassino-Atina road and attacked the Germans on the slopes of Mt. Belvedere.

Bad weather limited air operations, but light bombers attacked road and rail objectives at Ceccano, Cisterna and Itri.

The bombing of Cisterna, on the Appian Way 16 miles northeast of the Anzio beachhead, suggested the allied assault forces have not yet reached this important highway at that point, although they may have gained it nearer Rome.

Itri also stands athwart the Appian Way seven miles inland from Gaeta further down the coast. Ceccano lies inland about 30 miles due west of Cassino.

Planes on Patrol

Fighters maintained patrols throughout the day. Three enemy aircraft were destroyed. Two allied planes are missing.

Although Cassino itself appeared largely abandoned by the Nazi troops, their positions in the surrounding hills gave them a clear sweep of its streets and bomb-jumbled houses.

Allied naval units continued to exert a powerful control over coastal roads by which Germans could shift their fighting from the Cassino area to the northern beachhead, and again ploughed up sections near Formia Tuesday night with their plunging shells.

Littoria is 13 miles due east of Nettuno, four and a half miles from the coast, and four miles from the Appian Way.

The clash with German armor southwest of there may have indicated the British or Americans had pushed forward across the Mussolini canal.

The Americans on the old Fifth army front were making steady if painful progress in an encircling maneuver against Cassino.

To the south the British consolidated their gains over the Garigliano, Canadian artillery of the British Eighth army shelled enemy supply columns near the Adriatic coast, and Indian infantry threw back to small scale German attacks near Orsogna.

Build Up Defenses

Heavy traffic was observed in the German-held area between the two allied fronts, and a race clearly was on to build up the Nettuno bridgehead to meet an expected crisis.

Today's communique said American and British forces there had been "further reinforced. The Beachhead has been improved by limited advances."

Dispatches said the waters off the beachhead were still black with allied ships and landing craft, protected by barrage balloons, a thick canopy of anti-aircraft fire from ship and shore, and patrols of allied fighters.

The three enemy planes shot

LET'S ALL BACK THE ATTACK WITH AN EXTRA WAR BOND

4TH WAR LOAN

Not too little— too late

AMERICAN troops are fighting and occupying strategic bases at 56 points strung halfway around the world.

Regardless of distance from home shores, our fighting men must receive a steady stream of supplies and equipment. And convoys are carefully scheduled to reach them on exact timing.

For more than two years, Erie and other American railroads have been meeting the timing of convoy sailings. Troops, equipment, and supplies must arrive exactly when they are needed for loading so there will be no congestion—no delays.

Timing is of the utmost importance on both the battlefront and homefront.

The timing of your War Bond purchases is of great importance, too. Right now, today, your government needs *your loan* to help keep supplies of vital war materials flowing to our men so they will never have too little—too late.

HELP WIN THE BATTLE OF TRANSPORTATION

Do war work and get excellent pay working for the Erie. Both skilled and unskilled workers are needed immediately to keep supplies flowing to the battlefront. Apply to the nearest Erie office or the Railroad Retirement Board

Ration Token Contract Probe Is Demanded

By The Associated Press

WASHINGTON, Jan. 27 A — congressional investigation into the $2,380,000 contract for manufacture of fabric ration tokens by the Osborne Register Co. of Cincinnati was demanded today by Representative Busbey (R-Ill.).

Declaring the contract was let without competitive bidding by the office of price adminstration, Busbey said it "smells to high heaven."

The Osborne company was given an initial contract by OPA for 900 million ration coupons at $1.44 per thousand, or $1,296,000, Busbey said, adding after the contract was let the OPA decided it needed "not 900 million ration tokens, but two billion of them."

Ordnance Production Keeps Up with War's End Still Unsighted

By The Associated Press

CLEVELAND, Jan. 27.—Ordnance production plans contemplate no early end to present hostilities on the various world battlefronts, Col. H M Reedall, Cleveland district ordnance chief declared today in reporting war materiel manufactured last year in the 58-county region was valued at $2,000,000,000

In his annual review, Col Reedall said arms, ammunition and vehicles for American forces comprised the principal share of the ordnance out that considerable quantities of materiel also were transported to 17 allied countries under lend-lease

The review noted that $1,012,515,000 of the total amount was disbursed to prime contractors in 55 northern Ohio countries and three counties of western Pennsylvania

Automotive Equipment

Automotive equipment produced as ordnance included 195,687 vehicles 400,000 engines and transmissions, 3,864 tanks and tank hulls, 100,000 bullet sealing gas tanks and 2,500,000 tires

Listed under ammunition production were 68,000,000 cartridges cases, 28,000,000 shells, 50,000,000 fuses and primers, 5,000,000 shot and 750,000 aerial bombs

Included in artillery and small arms production were 129,526 gun-tube forgings,and similar armament 14,980 cartridges, 7,086,842 carbines, bayonets, machine gun mounts and ammunition boxes, 471,000 fire control pieces, including Binoculars telescopes and synchronous motors

As lend-lease, district war industries produced 2,751 machines including lathes, screw machines, grinders milling machines, boring mills, cutting tools, jigs and similar tools and spare parts

The army ordnance officer praised industrial engineering accomplishments in the 58 counties and pointed to 'savings of more than 11,000 tons of steel and over $3,000,000 during 1943 . . .

'Major battles still to be fought mean that our soldiers must be provided with materiel and equipment of the types and in the quantities that will help gain the eventual victory . . .

'It is not only dangerous but extremely unwise to assume the war will end soon. Ordnance production plans contemplate no early end to hostilities'

Marion Ensign's Wife Directs Ordnance Work

A news report from Cleveland names Mrs Marcella R. Haldeman of Marion as one of two young women who conduct the important work of directing 'quality control' inspection of ammunition for the Cleveland Ordnance district. Her associate director is Miss Agnes Kane. A photograph of Mrs Haldeman and Miss Kane taken at a desk in their headquarters in Cleveland, appeared in a Cleveland newspaper this week.

The news report states that up to this time the two young women have directed inspection of $217,000,000 worth of ammunition 'Quality control' is described as the method by which the ordnance district checks on ammunition to be sure that it is up to required standards

Mrs Haldeman has been employed in war plant work since more than a year ago, when her husband, Robert G Haldeman, entered the Navy. He is now an ensign on duty in the Pacific battle areas. Ensign Haldeman is the son of S Grant Haldeman of 368 Girard avenue.

Before her marriage Mrs Haldeman then a resident of Logan, O., was a student in chemistry at Ohio State university. It was there that she first met Mr Haldeman, who was enrolled in the O S U School of Commerce

Her first employment in war plant work was as an inspector for the Defiance Pressed Steel Co in Marion.

Living Costs Are Not Absolute

[illegible] OHIO, tells [illegible] that living costs [illegible] the last month [illegible] to the [illegible]

[illegible] They are related [illegible] have increased 59 [illegible] not take into account what [illegible] comes to another 1,500 steel [illegible] of another 1,500 whose living cost [illegible] increased well over 50 per cent.

[illegible] of living cost index has been [illegible] in the case of wage [illegible] adjustment to war [illegible] fixed incomes. These wage [illegible] have been entirely in the organized [illegible] to keep abreast of the inflationary [illegible] are doing what their counterparts [illegible] the recent deflationary cycle; they have [illegible] to fit the cloth, which still is not [illegible] in this country.

[illegible] argument is not with the figures Mr. Murray uses, but with the way he uses them. [illegible] that most of his countrymen know their [illegible] have not risen 50 per cent because they did not permit them to rise by anything [illegible] much. Mr. Murray's living cost estimate [illegible] deceptive as the index of the bureau of labor statistics index on the same subject—and, by the way, whatever became of that committee which was going to report on the latter index?

But Is It Economy?

THE Byrd economy committee's recommendation that the free mailing privilege be withdrawn from federal departments and agencies doesn't seem to have any direct bearing on economy, but the idea is worth looking into for another reason.

Newspapers, which have been the targets for much of the postal broadside from Washington, [illegible] have been skeptical about it for the plain reason that its preparation so often seemed a waste of money. Some of it was useful, of course, and a lot of it would have been useful [illegible] had been received in time to use, but most of it was waste basket filler. As proof that it served no special purpose, the part that has [illegible] already has not been missed, and most of those [illegible] could follow it into limbo without a tear being shed. In a word, the Byrd committee [illegible] go to the root of the waste, [illegible] but [illegible] one of the steps in the compromising direction.

[illegible] as that is concerned, there is nothing to be lost and clearly nothing in the rules of business [illegible] to keep the bureaus and [illegible] from paying postage on the bureaucratic [illegible] and thereafter charging the taxpayers not only for the cost of preparation but [illegible] the postoffice department's tariff on [illegible] could then constitute one of its juiciest [illegible].

Amen to Charles E. Wilson

CHARLES E. Wilson, the war production board's vice chairman, seems to be rounding [illegible] one of the country's ablest defenders of common sense. His speech to the Army Ordnance [illegible], warning against revulsion [illegible] as the fighting stops and [illegible] full and continuing preparedness [illegible] women.

[illegible] another after the last [illegible] about eliminating future conflicts [illegible] by [illegible] the insurance lapse. Some [illegible] out loud, and many of us took [illegible] privately. When the blaze broke [illegible] we were deluded by our own wishful [illegible] and one another calmly that it [illegible] because we had adopted a [illegible] changing ways.

[illegible] again. The question is whether [illegible] the dream will be kept separated from [illegible]. The premium on insurance against [illegible] is enough to justify plans to re[illegible] measures, but does not [illegible] enough to warrant a lapse of protection. [illegible] there will come a day when all risk [illegible] but until then the United [illegible] are dreaming in full awareness [illegible] dreaming won't make it so. [illegible] warning is timely. If the United [illegible] it does—it is not too [illegible] that direction by serving notice [illegible] makers that Sucker Sam doesn't intend to [illegible] get caught three times in the same generation.

Open to Question

A POLL of [illegible] affairs committee-men [illegible] majority doubting the wisdom of continuing the army and navy student training programs is not an unexpected development. The wisdom of trying to train a [illegible] of doctors [illegible] approximately 20,000 better qualified officers [illegible] classrooms [illegible] open to question.

In view of the training program's close connection with the welfare of college and universities, its final disposition will have to be determined with an eye to their problems. But it cannot be argued reasonably that the training program is not subject to revision in the light of new circumstances.

News Behind the News

Stalin Pictured as Making Use of Press To Serve His Diplomatic Purposes.

By PAUL MALLON

WASHINGTON, Jan. 27—[illegible] Roosevelt, Churchill [illegible] Teheran after [illegible] Mr. Churchill, [illegible] [illegible] is supposed to have [illegible]

"There is no doubt about it. We are reconciled to the fact that the world after this war will be no more pink."

It had to be explained to Stalin. He did not know of our use of the word "pink" as the story goes among diplomats here who accept it as authentic. When the translator finally conveyed the precise Russian equivalent for Churchill's meaning, Stalin chuckled. Mr. Roosevelt intervened with: "The world will be all colors of the rainbow."

Whether the world is to be rainbow or pink, Russian diplomacy lately has been pure red. It is now clear the "Pravda" charge that the British were attempting to make a separate peace, as well as the eye-popping attack on Mr. Willkie, was simply a Russian diplomatic move to make the Curzon part of Poland, the Baltic states, and Finland a similar deep hue.

Turning on the Heat

Stalin turned the heat on the British who foster the exiled Polish government and upon Mr. Willkie who has advocated more independence for the Baltic states particularly.

There may or may not have been some incident behind the peace negotiation rumor. Both Russia and Britain are supposed to have conducted some indirect talks with Nazi peace bearers from time to time in order to sound out the enemy for military purposes. These, however, in no way impair the genuineness of the agreement among the United Nations for unconditional surrender.

To the contrary, some negotiations are proceeding now between Russia, Britain and the United States for occupation of Germany when victory finally is won. It is being decided what part of Germany Russia will occupy no matter who gets to Berlin first. (Incidentally, a Russian general made a statement a few weeks ago saying the final battle line would be the Spree river, which runs through Berlin, although he referred to military operations rather than to political occupation.)

Stalin Uses Press

But this is not the most important phase of last week's sensation. This country is entering a new era of diplomacy in which official Red [illegible] newspapers may be used by Stalin to stir up whatever diplomatic pot he chooses to bring to a boil.

American news reading and American diplomacy must be adjusted to the different conception of news from Russia. There, it is used for official purposes and not necessarily or primarily to inform the public what is going on.

This time, as usual, it was accompanied by agitation from the Communist elements in both London and the United States to drive from the British and American governments what they called "anti-Soviet influences." The Daily Worker long has been gunning for Assistant State Secretary Berle, for instance, mainly because, in state department councils, he is supposed to have resisted some Russian claims.

We Can't Retaliate

Obviously, if domestic Communists are going to help conduct Russian pressure diplomacy by agitating against officials who are not putty in their hands, you would think the American press well might retaliate by advising Stalin bitterly as to who should be dropped from his official family.

This, of course, would be practically ineffective. If our press did, Stalin simply would not print it in Russia and the agitating purpose would be lost. But we publish his "news" as possible truth.

Incidentally, in all this series of Moscow agitations (including the Czechoslovakian treaty, etc.) no criticism of Mr. Roosevelt or any of his actions has been involved. True, the Pravda agitation came as a miraculously timed unofficial rebuttal to Mr. Hull's offer of mediation, but, in general, Stalin and Roosevelt get along far better than Stalin and Churchill.

U. S. Urged To Use Firm Hand in Dealing with Unfriendly Conspiracies in S. America.

By WALTER LIPPMANN

IT may be true, as Senator Iturralde at the Bolivian embassy in Washington says, that the revolutionary regime in his country has some popular support. The living conditions of the workers in the tin mines are known to be at a very low level indeed. But that does not alter the fact that the new regime was established by a conspiracy, outside and inside Bolivia, and that it was engineered by Fascists, or more exactly by Nazis whose connections run back to Berlin.

Naturally the conspirators exploit the popular grievances: That is exactly what Mussolini, Hitler, and all their imitators have always done in their rise to power. The Nazis, when talking to the masses, have always worn a demagogic mask; the name "Nazi" is an abbreviation for national socialist.

We may be perfectly sure that this conspiracy was not organized because in Berlin and Buenos Aires the conspirators' hearts were bleeding for the Bolivian proletariat in the tin mines. They have been playing for other stakes.

They are out to destroy the union of American republics, and to establish a bloc of nations around and south of the River Plata into which the Nazis and Fascists, who know they are defeated in Europe, can retreat, and there recuperate and reorganize for a return to power. In Argentina and Bolivia they have been preparing one of the places from which to try it all again.

Secretary Hull's Comment

Secretary Hull refused to recognize the Bolivian government on the ground that the rebellion was "but one act committed by a general subversive movement having for its purpose steadily expanding activities on the continent." We may be sure that he would make no such grave accusation if the evidence had not been conclusive, and the action of the Argentine government in breaking diplomatic relations with the Axis is proof conclusive that he knew what he was talking about and what he was doing.

We must hope, of course, that the reaction in the Argentine means that this consummate evil now be completely unmasked and wholly destroyed. But it is much too early to feel sure, and we shall need to be shown, and clearly shown, by the Argentine government.

The plain truth of the matter is that the Fascist character of the Argentine government is so patent that acts to appease the United Nations by making concessions long overdue cannot be accepted easily.

Our reaction to what is happening in South America will have long consequences. For we have here the first stages of a return to that conception of international order which was lost to sight in the anarchy of the Twentieth century. This is the view that national sovereignty is not absolute, arbitrary, and unconditional, but that it is a right within the framework of public law and of a universal moral order.

Can't Defy Neighbors

A state cannot, therefore, do anything its rulers happen to wish to do; unless it conforms to the accepted principles of the civilization to which it belongs, it is a rebel and an outlaw. The principles of civilization are not unchanging. They develop. But such as they are in any epoch, they cannot be defied by any state without danger to its neighbors.

This conception of what modern men call sovereignty has been traditional in the western world for some 20 centuries. Our Declaration of Independence was written by men who would not have known how to think in any other tradition.

When many of those same men later recognized the independence of the Latin-American republics, and then backed their recognition by proclaiming the Monroe Doctrine, they assumed as a matter of course that this whole hemisphere would acknowledge the same universal principles of public law and public morals.

It is not, then, a new departure but a return to ancient principles which have been grievously flouted and neglected in our time, when we say to Bolivia that she cannot secede from the community of which she is a member.

As long as Bolivia tolerates a government which is affiliated with the enemies of this community, or contains leading men who are in rebellion against its basic principles, we are compelled to act and, as seems most effective, we shall act.

Looking for Refuge

We shall not have finished with this war until we have eradicated all the elements of any conspiracy capable anywhere in the world of renewing this war.

No doubt the central place to eradicate them is in Germany. Not much can be done around the River Plata if the German defeat is conclusive. But around the River Plata the German defeat might be made inconclusive, and fortunately perhaps, the conspirators have shown their hands early enough to put us on guard.

This may be because they could wait no longer; the Nazis are desperate and doomed men in Europe and they must make ready a place of refuge. But in fact it may also be due to the feeling which has long existed in the Argentine, even before it fell into the hands of the Fascists, that the United States is a good-natured and morally lazy democracy which will not act in its own vital interest until someone, as at Pearl Harbor, has kicked it in the face and knocked it down.

Cynically frank Argentinians have been heard to explain the "neutrality" of their government on the ground that if Hitler won the war he would take revenge, whereas if we won the war we would forget before we even remembered to forgive. Perhaps this time we may be proving that we are made of sterner stuff.

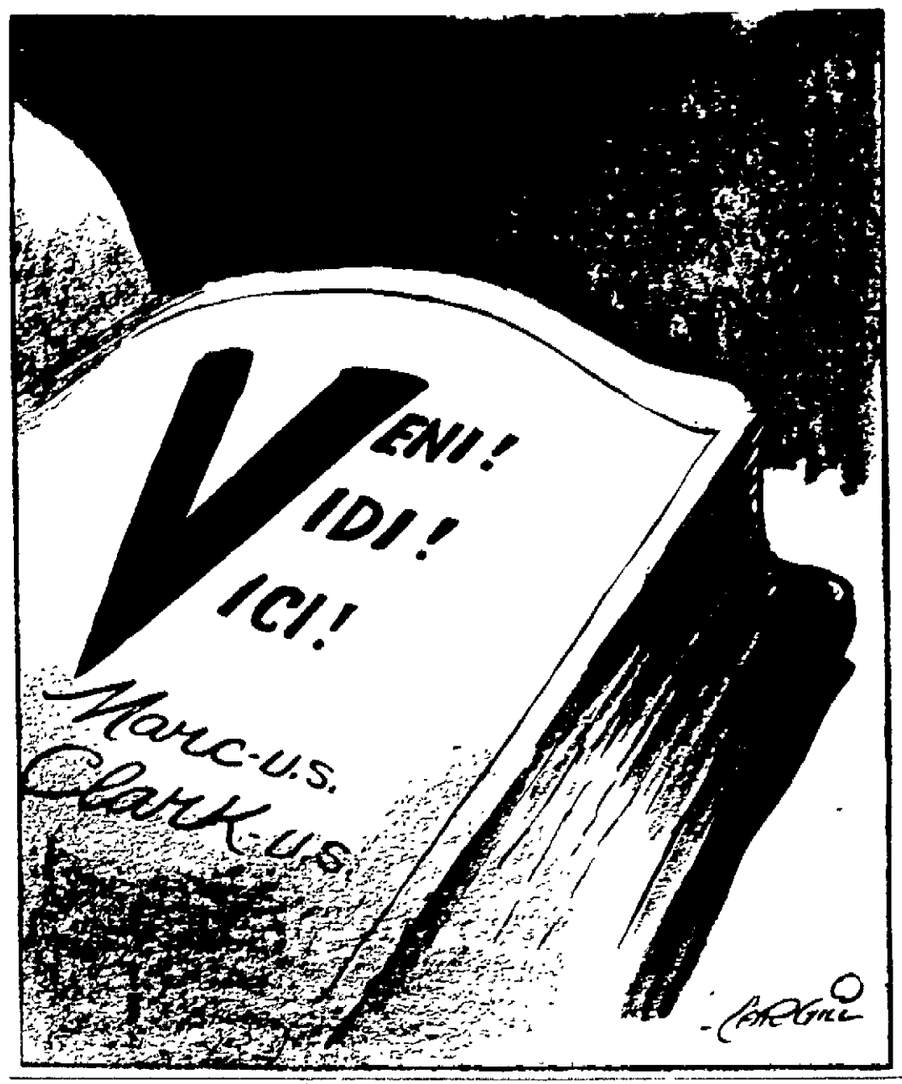
NEW PAGE IN ROMAN HISTORY?



From News of Other Years

TEN YEARS AGO

It was Saturday, Jan. 27, 1934.

Governor B. B. Mocur of Arizona declared he would do all in his power to grant quick extradition of John Dillinger and his three desperado companions to the state that presented the most serious charge against them.

The former Kaiser Wilhelm Hohenzollern marked his 75th birthday anniversary at his retreat at Doorn, the Netherlands.

Dan LaMarche was elected president of the Marion Club at the group's annual meeting. Roman Knecht was elected vice president, W. W. Thompson, treasurer and T. R. Allen, secretary.

Francis J. Gosser, 90, one of Crestline's first merchants, died at his home there.

Mrs. Matilda M. Edler, 62, died at her home in Galion.

Merle Wise of South Prospect street gave a party at the Marion airport to celebrate a solo flight after six hours and 20 minutes of flying instructions, an airport record for the 3,500-pound plane class.

The Peppy Eight club met at the home of Mr. and Mrs. Ralph Bennett of South Vine street.

Miss Margaret Walker was a guest of the L. S. D. club at a meeting in the home of Miss Glenna Walker of Chicago avenue.

TWENTY YEARS AGO

It was Sunday, Jan. 27, 1924.

Levi Roseberry, 74, Civil war veteran, died at his home on Blaine avenue.

The new edifice of the Martel M. E. church was dedicated with the address given by Dr. B. L. McElroy of Delaware.

Carroll A. LaVielle of Marion went to Cleveland to accept a position as a pharmacist with a large drug company.

Rev. W. M. Keller of Prospect, pastor of the Prospect Methodist church, occupied the Epworth M. E. pulpit in place of the pastor, Dr. Jesse Swang, who had been ill for two week.

Rev. Earl Holliday of Marion, a student in the Northern Baptist seminary in Chicago, accepted a call to the pasterate of Emmanuel Baptist church on North Main street.

The Palestine Question

By Ned Nordness

Washington Correspondent

WASHINGTON—The British government has closed the gates of Palestine to Jewish immigration after this April and again attention is focused on the strife of two peoples who claim the Holy Land for their own.

Both the Arabs and Jews regard Palestine as their homeland. The Arabs cling to their ambition for national status and independence. The Jews yearn to realize an ancient dream of establishing a home for their people in the promised land.

Five million Jews in this country are vitally interested. Millions of dollars of American money are invested in Palestine Jewish enterprise.

The state department is much concerned with the lot of the Jews, but the problems attached are delicate and the department is not losing sight of other issues, mainly our war interests. The U. S. government has no desire to make a move that would interfere with Britain's winning the war.

Britain's Hot Potato

Many Jewish organizations, notably the Zionist Organization of America, are pressing for U. S. intervention in Palestine. But there is little this country can do. Government officials concede the United States has been interested in the creation of a Jewish national home in Palestine, but this country cannot assume responsibility. It has no legal contract under which it is committed to share in the rule of Palestine.

In short, since Palestine is a British mandate, the hot potato is hers.

The Arabs appear to have the edge on the Jews. A 1939 British "white paper" sanctioned Jewish immigration of 75,000 during the following five years to bring the Jewish population of Palestine up to one-third of the total. Then further Jewish immigration is banned.

The 1940 census showed 550,000 Jews, more than 1,000,000 Arabs and a smattering of others.

The status of Jews during the World war and leading up to and during the present war undoubtedly influenced Great Britain's stand against further Jewish immigration against Arab wishes.

During the World war the Balfour Declaration was issued. It was this declaration which really brought about the pulsing headache which is the Palestine problem. Issued in 1917, it stated:

"The British government views with favor the establishment in Palestine of a national home for the Jewish people, and will use their best endeavors to facilitate the achievement of that project...."

The declaration undoubtedly was motivated by the need of drawing to the Allied cause the support of Jews in neutral countries, and in part was believed to be a reward to Dr. Chaim Weizmann of London, president of the Jewish Agency for Palestine, who had turned over to the British a base for a powerful explosive.

Today nothing is needed to make Jews all over the world long and work for the defeat of Hitler and Nazi-ism.

Arab Relations Important

Peaceful Allied relations with the Arabs are vital. Allied troops are stationed in territory populated by strongly-armed Arab groups who could prove troublesome. Much oil and potash are provided from Arabic areas. Railways, airlines and strategic roads terminate or course over Arab-dominated territory. It is quite apparent Great Britain was anxious not to disturb Arab tranquility as war clouds gathered in 1939.

The Arabs contend the British promised Palestine sovereignty to them in 1915—two years before the Balfour Declaration — when the Germans were winning and the British needed Arab help.

Thus, after the Balfour Declaration, claims and counterclaims were hurled at the British and each other by the Arabs and Jews. The claimants of Palestine fought each other with knife, bomb and rifle. More than 2,000 lives were lost, millions of dollars in property destroyed.

Great Britain attempted mediation, suggesting an Arabian and a Jewish state in Palestine with the British holding mandate over a third Partition. The proposal fell upon deaf ears. Finally the British issued the white paper of 1939 and declared the Balfour Declaration did not envisage an independent Jewish state. The government denied, also, any promises of an independent Arab state.

Colonial Secretary Oliver Stanley last Nov. 10 disclosed only 43,000 Jews had arrived in Palestine by September, 1943, since 1939, leaving 32,000 yet to enter. He indicated Great Britain would not exclude the number needed to fill the 75,000 quota, arriving after April, if their documents were in order and it could be shown they had been detained by difficulties of war.

Halley's comet will not be visible again until 1985.

But Your Correspondent Can't Overlook Statistical Evidence of Life in Other Places.

By DAMON RUNYON

I HAVE received what may be a [illegible] rebuke from D. L. Mansell of the [illegible] (Ohio) Repository for my recent [illegible] that service men and women will come [illegible] to "a civilian population groggy from [illegible] of wild spending, gamboling, night [illegible] and boozing, the like of which the world [illegible] before seen."

"This charge recurs frequently [illegible] ing," says Mr. Mansell. "It is most [illegible] in your criticism of women for not [illegible] to calls for their service. And it is [illegible] believe, to many of your readers. I suspect, Mr. Runyon, that like the blind man who [illegible] elephant's tail, you are preoccupied with a [illegible] of the great country you are writing about.

"For many years as an ordinary member of what may reasonably be called the [illegible] principal segment of the population of the United States I have been offended by the [illegible] of writers living too much in urban [illegible] and seeing too much of the parasites [illegible] ten on the honest toil of their countrymen to describe the elephant's tail as though it were the whole elephant. That is not the United States. It is only an infinitesimal part of the United States.

"THE United States we see—we [illegible] live in towns like Canton, [illegible] factory is making war products, [illegible] streets are full of men and women [illegible] dirt of hard work on their hands. [illegible] homes are full of everyday problems of [illegible] time living, where the wildest spending [illegible] comes to attention is some poor [illegible] blowing himself to a watch or [illegible] extra beer at the end of a 12-hour turn. [illegible] steel mills—is not the United States of New York City night clubs or Hollywood hot spots.

"Nor is it the United States of Washington, D. C., with its fears and prejudices which [illegible] inspire a chief executive to believe something might be gained by stifling the incentive that comes from voluntary work. Nor is the United States anybody with a big league standing in the writing business has been around about in recent years, with the possible exception of Ernie Pyle, who has made a magnificent thing out of telling the common people of this country they are worth a writer's time, too.

WELL, it may be I am too strongly impressed by figures, by what I read, and by my own observation of life in wartime America. Figures show me the consumption of liquor is greater than ever before and at higher prices; that nearly $800,000,000 was gambled by the people in 1943 on one legalized form of gambling alone, horse racing, and this officially reported sum takes no account of illegal gambling in various forms throughout the nation that undoubtedly totaled many millions more. Figures show me that nearly all crime has increased, juvenile delinquency has increased, and church attendance has decreased, and the metropolitan columnists inform me through their columns of night club business beyond anything ever known before, which argues still more spending in that field because night clubs cannot operate on a charity basis.

The urban centers may not be the United States, as Mr. Mansell says—I never claimed they are—and I have no doubt the people of Canton are exempt from my charges, but it seems most improbable that the inhabitants of the large cities alone could be responsible for the figures mentioned or for a picture that finds the President calling for universal service to muster sufficient man and woman power to complete the war effort.

LEAVING out Canton on Mr. Mansell's clear exoneration, there must be people outside the cities helping with the spending and gambling and boozing, else the figures would be more normal. I would like to call Mr. Mansell's attention to the fact that at least the big town night club customers have never been accused of absenteeism, and few saloon bar flies ever go on strike.

Anyone sap enough to believe what he [illegible] would think male Americans who have settled down all spend their winter evenings [illegible] listening to medicine shows and [illegible] the radio, reading, playing games, writing letters and defying the office of war information by speculating on forthcoming news. It just goes to show how a lie can get into circulation and stay there.

What these birds do during winter [illegible] is climb stepladders and stand on [illegible] wash down the walls of bathrooms and [illegible] because American women can go [illegible] before they get a glint in their eye and [illegible] they are not going to put up with all [illegible] another day so get busy with the [illegible] Horseface, and no back talk.

This is something that came upon the [illegible] gradually, like juvenile delinquency. Nobody thought much about it until one day there was a full-grown menace solidly established and going full blast from coast to coast. No relief in sight anywhere. The origin of the epidemic is obscure, but apparently it is beginning in the womanish desire to have spring housecleaning and fall housecleaning good, then winter housecleaning must [illegible] too.

Women just decided in a dictatorial way, with no plebiscite, that men, instead of lolling around on the backs of their laps [illegible] on the davenport until bedtime on [illegible] evenings, could be doing a lot more [illegible] a couple of sponges, and a crick in [illegible] the next morning. Besides, explained [illegible] all this would get them in shape for housecleaning.

And that's how it began. It does [illegible] imagination to see how it's going to end. [illegible] got away with the inch and now [illegible] the mile. The men of this country [illegible] housebroken. They are squirming [illegible] of the cleanliness fetish that has [illegible] American womanhood. Housecleaning [illegible] to be something done with a hose [illegible] in the spring and fall and now [illegible] a operation.

If the women want it that way [illegible] wear themselves out, that's their [illegible] down. But there are more important [illegible] men to be doing, even the misfits [illegible] in wartime. They should be resting [illegible] minds. They should be resting and [illegible] strength for trials that lie ahead. [illegible] be getting their minds off their [illegible] making merry of an evening, not [illegible] with grime and the cobwebs and [illegible] anything except a woman's sense [illegible] during the month of January.

So They Say—

Anything like a world-wide [illegible] based on the Atlantic Charter [illegible] tion of equal access to raw materials [illegible] nation, no one leader, no single [illegible] sufficient to solve the problems [illegible] the beneficent system to which [illegible] at the close of the war.—President [illegible] man of Johns Hopkins university.

Display Your Colors

Every patriotic home in America will want to display this emblem. Paste it on your front door or on a window to show that you have done your part in the 4th War Loan.

Show that you care...display your 4TH War Loan Sticker

Build Your Future With The World's Safest Investment

All over the country men and women look to the future with confidence. They are the ones who have put part of their extra wartime earnings into the world's safest investment—U. S. Government War Bonds.

Yes, they are helping their country in its grimmest struggle. But they are helping themselves, too! They are helping to secure their future, to weather any troubled days that may lie ahead.

What about *you?* Are you letting the dollars slip through your fingers—dollars that should be put safely away in War Bonds?

There are War Bonds to fit your needs... Bonds which are backed up by the strongest "company" in the world. Build that home you have always dreamed about. Send your child to college. Buy the wonderful things that are coming after the war. YOU CAN DO IT WITH YOUR WAR BOND SAVINGS.

YOU DIDN'T ask anybody to fight for you or die for you. Of course not. You *ordered* them to. You ordered them to make this sacrifice through your representative in Congress just as surely as if you had handed each of them a gun. Think that over.

There is only one decent thing to do for them in return. Bring them home as quickly as possible. That costs money—astronomical billions of dollars to convert all of our sons, brothers, and friends into the best fed, best dressed, best armed, hardest hitting fighting army in the world.

No one has ordered or will order you to buy Bonds. You are asked to invest in a Victorious America! You are asked to invest in at least one extra hundred dollar Series E War Bond in the 4th War Loan. That will cost you $75.00 and you get back at maturity $100.00, or $4.00 for every $3.00 you have invested.

Put that 4th War Loan Sticker in your window today. It shows that you have bought *extra* War Bonds during this drive. And don't stop with that extra $100 Bond. Give everything you've got—the men in uniform have.

Let's all BACK THE ATTACK!

Canton College Girl Jerks Tears and Bonds

By The Associated Press

WASHINGTON, Jan. 27—Treasury Secretary Morgenthau thinks 18-year-old Aurelia Christea of Canton, O., can bring tears to Americans' eyes and—most important—make them spend and spend for war bonds.

That's why she's here for auditions preparatory to making radio appeals for bond sales.

The daughter of Rumanian-born and naturalized parents, Mr. and Mrs. Vasile Christea, she appeared with Morgenthau at a Cincinnati bond rally last week and amazed the secretary.

His confidential assistant, Fred Smith, reported he read her Cincinnati speech four times and "couldn't find anything in it that would make people cry—but they did just the same."

Miss Christea, a freshman at Bowling Green State university at Bowling Green, O., said she began selling bonds a year ago because she had no brothers to represent the family in the armed forces. She is an only child. Her father is a steel worker.

War Stamp Chain Letters Troubling Postal Officials

Postmaster Homer D. Cole issued an appeal to Marion county residents today not to participate in any chain letter game, regardless of its nature, after new varieties of the old practice showed up at the postoffice.

Even for such a deserving project as the sale of war savings stamps, chain letters are illegal, he emphasized. Just because a good purpose may be served doesn't lessen the nature of the offense, he added, explaining that chain letters of all types are definitely banned.

One of the newest wrinkles ... making the rounds here is a "chain prayer," passed on usually by postcard. It carries what postal officials called a "modified threat" of misfortune for any person who receives one and fails to mail copies of it to 15 other persons. The originators of the idea apparently realized it was against postal rules to use the chain method of distribution because the cards are all unsigned.

"It's a double offense right now to use chain letters or cards," Mr. Cole declared. "It's not only against postal rules but it also imposes an extra burden on postal staffs at a time when they are troubled by manpower shortages just like private business and loaded with the extra volume of work created by soldier mail."

P.-T.A. Hears Talk By Rev. Eldred Johnston

Rev. Eldred Johnston, pastor of the Central Christian church, was a guest speaker at a meeting of the Pearl Street P.-T.A. Tuesday night. The meeting opened with group singing led by Mrs. Mary Houghton and during a business session $5 was contributed to the Red Cross for kits for service men. It was announced the membership total now is 280, and Mrs. Lloyd Williams, president, announced the school will conduct a paper drive in February.

Taking for his topic "Unity Through Tolerance," Rev. Johnston said if we are to regain unity in America it must come through tolerance. He listed five following points: Need for more international tolerance, tolerance of creeds of other people, need for more racial tolerance, tolerance to clergy and inter-racial tolerance. The speaker was presented by Mrs. F. E. Hoh, program chairman.

Special music was furnished by an instrumental quartet composed of Allen Clegg, Emma Barnhart, William Beaver, James Cessna, Dale Robinson, 6th grade pupils of the school.

The social hour was sponsored by the two fourth and sixth grades. The table was centered with a bouquet of pink roses and pink and white were the colors carried out in the refreshments. Miss Emma Duerr and Miss Wilma Clark presided. The attendance banner was won by the rooms taught by Miss Audrey Bolander and Miss Esther Eggleston.

We will make your Kitchen the most admired room in your home.

Our expert mechanics will install a floor of Armstrong Inlaid Linoleum that will convert the drabbest kitchen into a lovely workroom—a room that will save you all that hard work of scrubbing—a room that you will be proud to show to your friends.

And you will be surprised how little it will cost you to have a real, modern kitchen floor, that will endure as long as the house itself.

We show every pattern in the big Armstrong line—not small samples, but dozens and dozens of full rolls that enable you to see just how your new floor will look.

Besides we have hundreds of pictures of ... rooms that will aid you in choosing the design to fit your own home — to make yours different from anything else in town.

... you will phone us, our man will call and give you the exact cost for the completed job down to the very penny. You won't buy anything until you know the full cost of the job installed. No obligation, of course.

Home-Mixed Syrup Relieves Coughs Quickly

Saves Big Dollars. So Easy! No Cooking.

A real surprise awaits you in your own kitchen, for the relief of coughs due to colds. You can easily mix a cough syrup that gives you about 4 times as much for your money.

Make a syrup by using 2 cups of granulated sugar and 1 cup of water a few moments until dissolved. Or you can use corn syrup or liquid honey, instead of sugar syrup. No cooking required—it's no trouble at all. Then put 2½ ounces of Pinex (obtained from any druggist) into a pint bottle. Add your syrup and you have a full pint of really wonderful cough medicine. It never spoils, lasts a family a long time, and children love it.

This mixture takes right hold of a cough in a way that means business. It loosens the phlegm, soothes the irritated membranes, and quickly eases soreness and difficult breathing.

Pinex is a special compound of proven ingredients, in concentrated form, well known for prompt action in coughs and bronchial irritations. Money refunded if it doesn't please you in every way.

Wife of Galion War Prisoner Is Awarded Medal in Ceremony

Special to The Star

[illegible] Sergeant Harry E. Ketterman [illegible] a prisoner of war in Germany, at Scarmonth [illegible] Legion [illegible]

The program [illegible] G. F. Boyer, commander of the post, [illegible] when the [illegible] presented [illegible] Mrs. Boyer gave [illegible] January 14, 1942 over Germany when Sgt. Ketterman was a turret gunner operator on the Flying Fortress "Hells Bells II," which was brought down over enemy territory. He related that only two of the crew are now living as prisoners of war in Germany, one of them being Sgt. Ketterman. All of the others were either killed or have died since that time, Boyer said. A poem that had been written by the other crew member who is also a prisoner was read by Wilmont Lehman. While the read the poem, a picture was shown of the bomber and its crew after which the Legion choir sang "Those Pals of Ours."

Then Mrs. Ketterman who is the former Ruth Heinberger and makes her home with her parents, Mr and Mrs. Harley Heinberger of South Union street, was brought to the rostrum by Mrs Lawrence Neumann president of the Legion auxiliary. She was presented the Air medal in behalf of her husband by First Lieutenant Ryan of the United States Army who is stationed at Gambier, O. After the presentation, another selection was sung by the choir and then Mrs. Howard Evans of the auxiliary presented Mrs. Ketterman with a bouquet of red roses.

This was followed with a talk by Harry Eaton of Ashland, First District Commander of the American Legion, and moving pictures were shown

San Francisco is the only American port where all port facilities, piers, wharves, terminals and belt railway are under the single ownership of the state.

Miss Louise Oglesbee Stricken at Kenton

Special to The Star

KENTON, Jan. 27—Miss Louise Oglesbee, 73, for 12 years health director of the Hathaway-Brown School for Girls in Shaker Heights, O., died Wednesday in McKitrick hospital where she had been seriously ill two weeks with heart disease. A native of Hardin county, she received her nurse's training in the Huron road hospital, Cleveland, graduating in 1894. She had been health director at the Hathaway-Brown school from 1927 to 1939, when she retired because of ill health. She had been residing here with a brother, Jesse A. Oglesbee.

Surviving are four brothers, Roy of Carey, Earl of Foraker, Walter and Jesse A. Oglesbee of Kenton. She was a member of the Women's City Club of Cleveland and of the Cleveland Nursing Center.

Funeral will be held Friday at 2 p. m. in the Porter funeral home.

Hope for Missing Union Co. Men Revived

Special to The Star

MARYSVILLE, Jan. 25—Hope was revived for the return from the "missing" of two Marysville men who were members of an Army transport plane with the report that Lieut. James F. Spain, co-pilot of the ship, had been found and that he was safe.

Lieut. Spain wrote his mother at Memphis, Tenn., that he had been rescued after spending 15 days in the jungles of India, 12 of which he went without food. He reported that he bailed out of the ship after it had been shot down by the Japs.

He did not refer to other crew members, none of whom were thought to have bailed out. It has been reported that the transport had been found and that it landed safely. There was no indication of loss of life but there also was no trace of other crew members. The two Marysville crew members were Capt. John L. Porter and Sgt. Harold W. Neibler. Sgt. Neibler joined Capt. Porter's squadron only a short time before the two were reported missing on Dec. 10. Lieut. Spain was found on Christmas day.

Kenton Police Drive on Bulb Shooters

Special to The Star

KENTON, Jan. 27 — Kenton police and Ohio Power company officials today joined in a drive to curb air rifle-shooting within the corporate limits, after Police Chief Clarence Sheldon was told that more than 50 street light bulbs have been shattered within the past week, 16 of them on Tuesday night. Bulbs are allotted on quota and are particularly hard to replace, Manager W. T. Augur of the Ohio Power company explained.

Boys apprehended while firing airguns at lights will be charged with malicious destruction of property, their parents will be asked to pay for bulbs destroyed, and their air rifles will be confiscated, Chief Sheldon said.

DRAFT NEARER FOR FARMERS

Many May Lose Deferred Status If Crop Production Falls Short.

By The Associated Press

CHICAGO, Jan. 27—Selective service served notice today on the 1,700,000 farm workers who have been deferred from military service that if their individual production does not add substantially to the nation's food supply their deferments may be cancelled.

Commander Patrick H. Winston, assistant executive, national selective service headquarters, said in a speech prepared for the national council of Private Motor Truck Owners, Inc., farm workers may be called upon in the near future to increase sharply their production goals or be taken into the armed services. He was speaking in place of Maj. Gen. Lewis B. Hershey, selective service director.

Crop Goals Higher

Winston said the agriculture department has set 1944 crop goals substantially above 1942 production and declared:

"We can ill afford to further defer farm registrants whose production does not substantially exceed their own family consumption and add to the nation's food supply."

Winston said about 1,000,000 of the 1,700,000 farm workers deferred are non-fathers and that about 400,000 are under 22.

The Tydings amendment to the selective service law requires deferment of registrants, regardless of their dependency status, who are found to be necessary to and regularly engaged in agricultural occupations or endeavors.

In November, 1942, selective service provided for measurement of farm activity in terms of "war units" and set an individual 16-unit objective as a guide for agricultural classification.

Winston said in some instances registrants have been deferred even though they were responsible for as little as eight war units of production.

Units May Change

"It may well be that in the forthcoming agricultural season 16 war units will cease to be merely a guide and will become the minimum of individual activity. * * * Should 16 war units become a minimum it will by no means considered as a maximum."

In order to meet the goal of the armed forces for 11,300,000 men by July 1, more than 1,400,000 men (including replacements) will be needed, Winston said. He explained these men now must be drawn from fathers reclassified, from youths who become 18, and from industry.

Selective service recently announced that men under 22 will not be deferred in war production or in war supporting activities, other than agriculture, except in unusual cases. Winston said there are less than 125,000 non-fathers in that age group who are deferred, as compared to nearly 400,000 non-fathers under 22 who are deferred in agriculture.

CLASS ENTERTAINED

Mrs. F. M. Sage of Girard avenue entertained the Wesuminster Bible class of First Presbyterian church at her home Wednesday afternoon. The hostess and Mrs. F. C. Weller served a one o'clock luncheon to members and guests. Mrs. H. D. Bonnette conducted devotions. Letters were read from Mrs. F. D. Howard and Mrs. Elza Hosler, who are spending the winter in Florida. Mrs. Walter Rissler read a poem in memory of Mrs. Ethel Evans. Mrs. Rissler's group was in charge of the program. Mrs. Bonnette and Mrs. Charles Melvin were in charge of contests.

KARL S. BOLANDER TALKS TO HIGH SCHOOL PUPILS

Explains Operation of Scholastic Art Awards.

Karl S. Bolander, former Marion resident, who is now director of Scholastic Art awards, spoke at a joint assembly of the students of Harding High school and Central Junior High school yesterday morning at the Palace theater. He explained that Scholastic awards are sponsored by Scholastic magazine, national student publication. Art work of students from the schools of the nation is taken to Carnegie Institute at Pittsbourgh where national winners are picked. Best art work is displayed at the Library of Congress.

Mr. Bolander paid tribute to his teachers in old Marion High school. He emphasized the importance of a well-rounded education in preparation for life work.

Avocations often lead to vocations, he said, citing several instances of casual interest in a subject developing into a career. Developing the idea of training for a suitable vocation, he said no one should chose a job they do not enjoy.

In conclusion Mr. Bolander pointed out the jobs art is helping to do in the war effort showing student posters made to further the Fourth War Loan drive.

Businessmen's Group Hears Rev. W. P. Behan

A group of Marion business men who meet each Wednesday for lunch at the Y. M. C. A. heard Rev. Warren P. Behan, interim minister at Trinity Baptist church, at this week's meeting. He delivered one of the lectures in the series of four he is conducting for the group.

FEDERAL INSPECTION OF ARMORY SET FOR FEB. 4

Personnel Inspection Date Also Announced for Co. B.

Lt. Col. Albert C. Rankin of Toledo, 5th battalion commander of Ohio State Guard announced Tuesday night at regular drill of Co. B that the annual federal inspection of property at the armory will be conducted on Feb. 4 at 9 a. m.—with March 7 as the date for personnel inspection. Col Rankin was present for his monthly visit of inspection. Mrs. Rankin accompanied him.

Ohio Gunner Jumps from Fort to Horse

By The Associated Press

A U. S. BOMBER BASE IN ENGLAND, Jan. 27—Technical Sgt. John M. Webb, an aerial gunner, probably is the only man who ever parachuted from a Flying Fortress onto the back of a horse.

Webb bailed out of a burning Fortress which was near its base and floated to a field where a horse was grazing. He landed squarely on the animal's back.

"He reared up in the air and I tumbled off my perch to the ground," Webb said. "I'm afraid that mare won't be any good for spring plowing."

He is a son of Mr. and Mrs. J. P. Webb of Yorkville, O.

A survey shows 2,000 plants will spend $2,000,000,000 immediately after the war is over to convert to peacetime production.

Safety Is Theme Of Grand Prairie Grange

"Safety" was the program theme of a meeting of the Grand Prairie Grange Tuesday evening. A paper, "Safety on the Farm, in the Home, and on the Highway," prepared by James Kerr was read by Mrs. O. G. McGlone. A vocal duet by Mr. and Mrs. Paul Lail with Mrs. Walter Lyon at the piano, and a one act play, "Playing Safe," completed the program. Mrs. Lyon, Jean and Helen Lyon, Mary Alice and Ruth Ella Lain E. V. Dean and Mr. Lail took part in the play. Mrs. Tom Thew was appointed chairman of a committee to decorate a booth at the Farm Institute at Mozart and it was voted to buy a war bond. At the next meeting a class of candidates will receive first and second degrees.

"NO MORE TROUBLE WITH CONSTIPATION!"

Says Long-Time Sufferer Who Tried Laxative Cereal!

If you, too, are disappointed with pills and purgatives, be sure to read this unsolicited letter!

"For several years I was afflicted with common constipation. I tried various remedies, but got only temporary relief. Several months ago, I started eating KELLOGG'S ALL-BRAN each morning, drinking water freely through the day. I have since never had the slightest trouble with constipation. My gratitude to KELLOGG'S ALL-BRAN." Mrs. H. M. Riley, 11 E. Division Street, Chicago, Ill.

Scientists say, KELLOGG'S ALL-BRAN can really "get at" a common cause of constipation—lack of sufficient "cellulosic" elements in the diet — because it is one of Nature's most *effective* sources of these elements! They work by helping the friendly colonic flora fluff up and prepare the colonic wastes for easy, natural elimination. KELLOGG'S ALL-BRAN is *not* a purgative. *Doesn't* "sweep you out"! It's a gentle-acting, "regulating" food.

If you have constipation of this type, eat KELLOGG'S ALL-BRAN or several ALL-BRAN muffins regularly. Drink plenty of water. See if you, too, don't cheer its welcome relief! Insist on *genuine* ALL-BRAN, made *only* by Kellogg's in Battle Creek.

— Guerrillas! —

Russia: Saboteurs Are Major Factor in the Reds' Success

This is one of a series of articles on guerrilla warfare and resistance movements by Associated Press correspondents writing in Axis-dominated countries.

By HENRY CASSIDY

MOSCOW — Every day among the uniformed masses in Moscow there appear more men and women in civilian clothes, wearing a round gold medal dangling at the end of a long green ribbon.

That is the decoration for a "Partisan of the Patriotic War" and they are guerrillas, who for more than two years have been living, fighting—some dying—in warfare behind German lines.

Now that a broad expanse of west Russia has been liberated, they are returning to what they call "The Big Land," or unoccupied region, bringing with them seemingly incredible, but well authenticated accounts of their operations. Their campaign is credited officially with being one of the major factors in the success of the Red army's drive across the Ukraine and White Russia.

Guerrilla warfare is as old to the Russians as war itself. Every invader of this country—Swede Pole, French or German—has had to fight not only soldiers but also people in arms.

If any call had been needed, it came in the second week of war, when Premier Stalin in a broadcast prescribed the "scorched earth" policy and partisan campaign. From virtually every city and village, small bands of men went into hiding, forming the nucleus of what eventually became the guerrilla army.

The biggest Partisan forces sprang up in the Bryansk region and in White Russia, where dense forests and swamps provided for large scale operation. Guerrillas took control of large areas, raiding German communications and garrisons, even meeting enemy punitive detachments in open battle.

One unit was headed by Mikhail Romashin, former secretary of the Bryansk district committee of the Communist party. His band was credited with blowing up the Blue Bridge over the Desna river, near Bryansk, and blocking the railroad into Bryansk for six months.

In the second year of the war, the guerrillas continued to harass the enemy rear.

Their warfare flamed to new heights last summer when the Red army started its advance. Bands were compact, closely-knit units, having radio connections and even plane service with "The Big Land."

They were instrumental in the recrossing of the Dnieper, their outstanding single achievement. Waiting on the east bank, they led the Red army through trackless swamps to embarkation points. Others on the west bank signaled clear landing places. Thus, the Red army drove across the Dnieper immediately after reaching it and broke the Germans' strongest defense.

As the Germans retreated, guerrillas impeded their movements. One party called "Flame" derailed 54 trains in White Russia and attacked 14 enemy garrisons, killing 2,351.

The full story of the guerrilla war cannot be told because operations still are under way. When it can be told it will be one of the epics of the war.

Quick Thinking Marine Saves Two Fliers' Lives

(The following story was written by Sergeant Frank F. Kuhl of New Bremen, Ohio, a Marine Corps public relations officer.)

SOMEWHERE IN THE SOUTH PACIFIC—(Delayed) — Quick thinking by Pfc. John R. Effinger, Piqua, O., ordnance man with a Marine dive-bomber squadron, saved the lives of two leatherneck airmen at an advanced allied air base.

Effinger was standing alongside the air field when a plane came in to land with only one of its wheels lowered. On the belly of the plane was a 1,000-pound bomb set to explode upon contact with the ground.

Just as the plane began to settle, with neither the pilot nor rear-gunner aware of impending disaster, the Ohio Marine seized a pistol and shot two red flares into the air.

Seeing the signal, the pilot opened his throttle in the nick of time and climbed away from the field. Upon checking his instruments, the flier discovered the failure of his automatic landing-gear mechanism and rectified it with emergency controls. He then came in for a safe landing.

Thirty-one tablespoonfuls of kitchen fat can make half a pound of dynamite.

4 Brown Stamps Expire Saturday

Brown stamps P, S, T, U in Book 3 for the purchase of meats, fats, canned fish and canned milk, expire midnight, Saturday, OPA district officials in Columbus reported today.

Brown Stamp G, valid for points of 20 each as well as W, worth 10 points each, Jan. 30, will continue valid until Feb. 26.

Housewives using Green Stamps K, L and M in War Ration Book 4 for the purchase of processed foods from Feb. 1 through March 20. These are the last green stamps on the page. They are to be used after red stamps are validated, as blue stamps will be validated on Feb. 27 when the new plan becomes effective.

CALEDONIA CLUB MEETS

The Port Matrons club of the Caledonia O. E. S. was entertained at the home of Mrs. Zoa Rue. Mrs. Helen Pommert was in charge. Contest honors went to Mrs. Opal Allen. Helen Louise Logan was initiated. The February meeting will be held with Mrs. Louella Osborne in Marion Feb. 21. Refreshments were served by hostess and daughter Marianna, assisted by her Fate sisters.

Delaware, New Jersey and Georgia were the only states of the original 13 which ratified the Constitution unanimously.

NEW FAIRGROUNDS PURCHASE PROPOSED

By The Associated Press

COLUMBUS, O., Jan. 27—Purchase of 800 to 1,000 acres near here for a new fairgrounds is advocated by the Agricultural Director, Brown.

Brown said it was almost impossible to expand the present state fairgrounds site, now used by the Army as a service command. Brown said a site should be obtained soon and plans ready for resumption of state fairs as soon as the war is ended.

The air service command leases the 150-a to tenants here as a storage depot and will retain control one year after hostilities end.

Brown indicated either the government or private interests might consider purchasing the present grounds for considerably more than enough to buy a better site five or six miles from Columbus which would have ample room for expansion.

He said he had been approached by interests from nearby Grove City, where the Beulah park race track is located, to acquire grounds there.

However he said a committee should be appointed to select the most suitable site, and indicated he would ask Gov. Bricker to request legislative approval for the undertaking.

KILLED IN COLLISION

By The Associated Press

YOUNGSTOWN, O., Jan. 27—Mrs. R. D. Russell, 58, was killed in an automobile collision about nine miles south of here, Joseph Appenzeller, driver of one of the cars, was injured critically.

COURT NEWS

Fund Transfer Asked

A petition to transfer funds in the amount of $777.68 from the bond retirement fund to the general fund has been filed in common pleas court by the board of education of Montgomery rural school district, through its attorney Martin & Reed. The petition points out that the bonds issued for building improvement purposes have been fully paid as of Dec. 1, 1943 and that it is no longer necessary to maintain this money in the bond retirement fund. The petition is signed by A. M. Smith, H. D. Wood, John Seiter, L. Cates and J. M. Rickenbrau.

Hot Soup Good in Winter

By BETSY NEWMAN

A big bowl of steaming hot soup with crackers or toast makes one feel good, and we can add other foods to make a balanced diet that

Deodorizes as it cleans . . . instantly! Effervescent—bubbles dirt away—leaves fresh minty fragrance. Costs no more than ordinary cleaners.

...to the family you some soup recipes ...ly that will serve for lunch, supper or dinner.

MENU

Soup, Vegetable or Cream of Vegetable, Crackers or Toast, Macaroni and Cheese, Cabbage and Apple Salad, Lemon Pie, Coffee or Tea.

Vegetable Soup

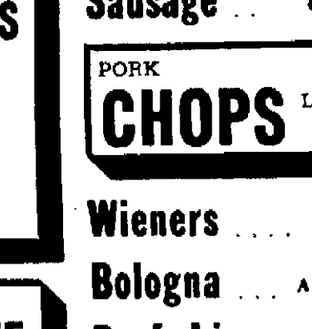
One large soup bone, cracked, 3 qts. water, 4 tbsps. fat, 1 green pepper, chopped, 1 c. chopped onion, 1½ c. chopped celery and leaves, 1c. finely diced carrots, 1 c. finely diced turnips, 2 c. diced potatoes, 2 c. tomato juice and pulp, 2 tsps. salt, or to taste, ¼ tsp. pepper.

Wash soup bone and be careful to remove all small, loose pieces of bone. Put bone in kettle, cover with the cold water and simmer for two hours. Remove bone from broth and cook all vegetables except tomatoes in fat in skillet for about 10 minutes, stirring frequently. Add vegetables, tomato, salt and pepper to broth, and simmer until vegetables are tender but not broken. Serve meat in soup, or save it for hash or croquettes. This makes a large quantity of soup, but it is equally good reheated and served another day.

Cream of Vegetable Soup

Two tbsps. finely chopped rutabaga, 2 tbsps. finely chopped carrots, 2 tbsps. finely chopped onion, 2 tbsps. finely chopped celery, 2 tbsps. melted fat, 1 tbsp flour, 1 c. milk, 1½ tsps. salt.

Cook chopped vegetables in fat for 10 minutes, add flour and stir until all are well blended. In meantime heat milk in double boiler, add a little to vegetable mixture, stir well, combine with rest of milk, add salt, and cook for 10 minutes. Flavor is improved if soup is allowed to stand for a short time to blend before serving, then reheated and served.



Cake and Biscuit Mixtures Helpful Baking Shortcuts

By BETSY NEWMAN

Taking shortcuts to prepare the meals is necessary for most of us these busy war days. Careful planning is also necessary, and we can use the short cuts manufacturers are marketing. These are prepared biscuit mixtures, cake mixtures, and self-rising flour. We are assured that all are wholesome foods, and they certainly are helpful.

MENU

Breakfast

Orange juice, cereal with milk, pancakes, syrup or brown sugar, coffee.

Luncheon

Hot biscuits, creamed leftover fish or meat, stewed prunes, cookies, milk.

Dinner

Broiled chops, baked sweet potatoes, corn pudding, banana salad, devil's food cake, tea or coffee.

Pancakes

2 c. sifted self-rising flour, 1½ tbsps. sugar, 1½ c. milk, 2 eggs, 2 tbsps. melted fat.

Mix dry ingredients, add milk, and egg yolks, then melted fat, and last, fold in beaten whites of eggs. If you bake on an electric griddle, use 1 extra tablespoon fat. If you do not use self-rising flour, add 3 teaspoons baking powder and ¾ teaspoon salt. This recipe may be used for either waffles or griddle cakes.

Biscuits

2 c. flour, preferably enriched, 4 tsps. baking powder, ¾ tsp. fat, ¾ c. milk or enough for soft dough.

You will not need baking powder or salt if you use the self-rising flour, and if you use the biscuit mix, follow directions on box and bake as usual. Sift dry ingredients and cut in fat with biscuit cutter. Make a well in mixture and add milk slowly and stir from center with a fork until soft dough is formed. Turn dough on lightly floured board and press a sheet about ½ inch thick with palm of hand. Cut into small rounds and brush tops with melted margarine. Bake in hot oven (400 degrees F.) about 15 minutes or until lightly brown. Serve hot.

Eden's Statement on Polish Border Reaffirms Charter

By DEWITT MACKENZIE
Associated Press War Analyst

Particular interest attaches to [illegible] Foreign Secretary Eden's reaffirmation of the British policy of [illegible] wartime changes in the map of Europe—that they take place with the free consent and goodwill of the parties concerned.

Back of the statement, the text Russo-Polish dispute over the territory occupied by the Soviet in 1939 at the time of the German invasion. Mr. Eden was replying in the house of commons to a question by a member. From long experience in reporting the proceedings of the house I know that questions sometimes are spontaneous and sometimes are inspired by the government in order to give it a chance to use commons as a sounding board to reach a wide audience.

In any event when you weigh all the elements of this situation it is easy to read into the foreign secretary's use of this opportunity to emphasize something even bigger than the Polish impasse. It may also be that he may have made his point when he said:

"His majesty's government of course stand on the principles enunciated in the Atlantic charter."

Charter Reaffirmed

So, if I'm on the right track, he was concerned not only with the Polish trouble but with reaffirmation of the Atlantic charter. And why should it seem expedient to reaffirm the charter?

Well, as this column has explained numerous times, many countries—especially in the orient—have been suffering doubts and are anxious for assurances that this document, which was drawn up by President Roosevelt and Prime Minister Churchill and has become the credo of the United Nations, means what it says. I discovered this during a tour of the war theaters a year ago.

One of the eight points laid down in the Atlantic charter declares that "they (Messrs. Roosevelt and Churchill) desire to see no territorial changes that do not accord with the freely expressed wishes of the peoples concerned." What is more natural than that the world should wonder whether this applies to the Polish affair and, if it does, just how it will be implemented.

There are a lot of angles to this question. For instance, who are the "peoples concerned"? Are the inhabitants of pre-war eastern Poland to decide whether they want to be incorporated in Russia or Poland, or is the Polish government in exile to determine this point?

Best Way Out

It is, of course, the anxious hope of the United States and Britain that this dispute will be settled by Russia and Poland themselves. This hope must persist despite Moscow's rejection—in cordial terms—of America's offer to employ its good offices in restoring diplomatic relations between Poland and Russia. Our offer, by the way, was not concerned with mediation of the territorial dispute.

But supposing there is no agreement between the Russians and the Poles, and the Muscovites just go ahead and reoccupy the territory in dispute? Who does what to make Russia give up this land?

The chief allies already have agreed that successful prosecution of the war, and the maintenance of peace, depend on continued amicable cooperation among the big three—Russia, America and Britain. It's generally conceded among statesmen and other observers that a rupture of relations among the trio would mean another world war.

This being so it would seem absurd to think that either the United States or Britain would go to the extreme of causing a break with Russia over a territorial change which already was a fait accompli before America came into the war. This doesn't mean, however, that the Atlantic charter declaration regarding annexation has been eased out. Mr. Eden has reaffirmed it, and it must remain one of the cardinal tenets of the United Nations.

MORROW CO. SOIL PROGRAM REVIEWED

87 Farms with 10,731 Acres Reached, Report Shows.

The program of the Headwaters Soil Conservation district of Morrow county has reached 87 farms totaling 10,731 acres in Morrow county, according to the second annual report of the district recently submitted to the department of agriculture.

The objective of the district is conservation of soil and water and raising of farming standards in the area. Work carried on includes conservation of pasture lands, setting up of better drainage systems, reforestation and control of erosion.

A typical project is a pasture rehabilitation plan which was carried out last year. A series of six public meetings was held at which 20 farmers signed agreements to follow the plan. They were asked to dick pastures after they had been limed. Heavy applications of commercial fertilizer were made and followed by a top dressing of stable manure. Plots were then seeded with a pasture mixture containing a mixture of alfalfa, red clover, ladino, timothy and brome grass. After work was finished demonstrations of treated areas were attended by 300 farmers.

Post war plans for the district mentioned in the report include extended drainage projects taking in cleaning of old ditches and building of additional facilities. Larger reforestation plans are also urged. Thirty-eight thousand trees were set out last year in Morrow county.

Land in the county represents a cross section of the state, being hilly with a shale base in the east and level with a lime subsoil in the west, the report states.

ocean and often said to be maintained by the German embassy, might close at the same time.

Diplomatic Problem

One question expected to be settled quickly is who will handle Argentine interests in Germany and Japan. The newspaper Noticias Graficas said last night it probably would be Sweden, although Switzerland and Spain were possibilities.

The effects of the diplomatic break upon the Argentine financial world still were uncertain, but the first reaction on the stock exchange was favorable.

Buenos Aires generally seemed happy over the government action.

Argentine newspapers, released to some extent from strict censorship rules, yesterday printed reports of German espionage and propaganda activities.

One paper, Critica, promptly got itself in trouble with an editorial in an "I-told-you-so" vein, pointing out it had often called attention to activities of Nazi agents. It was suspended for three days by government order.

Lend-Lease Request To Clarify Picture

By The Associated Press

WASHINGTON, Jan. 27—Argentina's new position in relation to the rest of the Americas probably will be clarified when and if she again applies for lend-lease arms and supplies.

A request for such aid is expected as soon as Buenos Aires has completed reorientation of her foreign policy begun yesterday when she severed diplomatic relations with Germany and Japan.

The issue is considered by the Argentinians to be of immense importance because they see themselves suffering as a South American power in relation particularly to Brazil, which as a full-fledged fighting ally of the United States has been receiving arms and equipment since 1941.

What Washington's reaction will be, however, probably will depend on the extent to which the Buenos Aires government has gone by then in cleaning up axis spy nests, propaganda and revolutionary intrigue within her borders. It probably will depend also on the need Argentina can show for lend-lease in the interests of hemispheric defense and the allied war effort.

The subject of lend-lease help for Argentina was last broached in August, two months after the revolutionary regime of President General Pedro Ramirez seized power.

Secretary of State Hull hotly rejected the request at that time.

SYCAMORE RESIDENT DIES

SYCAMORE, Jan. 27—John Orlemus Walton, 87, retired farmer, died at his home in Sycamore at 8:30 a. m. today following an illness of two weeks. He was born in Wyandot county May 16, 1857, to James and Barbara Coon Walton. In 1887 he was married to Miss Cletus Mary Grubbon who preceded him in death. The funeral will be at Moore's funeral home Saturday at 2 p. m. with Rev. B. F. Brouse conducting the service. Burial will be made in Pleasant Ridge cemetery west of Sycamore.

Tells of Experiences at Hawaii Where He Served 20 Months.

Sgt. Kenneth Bolinger of the Army Air Corps, who arrived home Saturday from Hawaii on a 30-day leave, spoke to the Y's Men's Service club when the group met Wednesday night at the Y. M. C. A. Sgt. Bolinger spoke on Hawaii, where he has been stationed for 20 months. He was formerly employed at the Avenue Lumber Co. in Marion and was manager of the Logan Lumber Supply Co. in Bellefontaine.

Mercury Hits 63 In Marion; Drop Forecast

Marion enjoyed spring weather again yesterday when the mercury soared to 63, well above the preceding day's reading of 59 which set a 14-year record. However, it was still 11 degrees below the 74 reading recorded in January of 1906.

"June in January" weather continued yesterday throughout the state, The Associated Press reported, but the weatherman doused any hopes it was here to stay.

"A cold trend will begin to set in tomorrow, which will be especially noticeable in the western part of the state," George W. Mindling, Columbus meteorologist, forecast. "It could develop into a freezing spell by Friday or Saturday."

Mindling said the week's high temperatures, while unusual in January, had been exceeded many times in previous years.

Record high January temperatures are listed for 1906, he reported. In that year, Cincinnati recorded a temperature of 75 as compared with yesterday's 68; Akron, 73, against yesterday's 61; Columbus, 72, far above yesterday's 58 and Cleveland listed 71, compared with yesterday's 64.

RUSSIA

(Continued from Page 1)

ond city, Gen Govorov's armies were racing toward the Estonian frontier following capture yesterday of the big rail center of Krasnogvardeisk. They had stormed through Kaskova and were reported closing in on Volosovo, 48 miles from the Estonian border city of Narva.

Other columns of Govorov's forces were blasting a path south of Krasnogvardeisk with the evident design of effecting a junction with Gen. Meretskov's army smashing west from the Lake Ilmen region.

The great Russian offensive which lifted the siege of Leningrad, now in its fourteenth day, was rolling on with apparently unabated momentum. In its first 12 days it had brought death to more than 40,000 Nazis, the Russian communique declared.

(A Polish underground radio station yesterday broadcast a report the Nazis have begun an economic evacuation of the city of Warsaw. German engineers, technicians and politicians, the broadcast said, were departing, "taking with them whole factories—machinery, administrative staffs and the workers.")

To the south in the lower Ukraine, the left wing of Gen. Nikolai Vatutin's first Ukrainian army was standing firm against German counter-attacks east of Vinnitsa and north of Kristinovka.

EXPECTS CLAMP ON SPIES

By The Associated Press

LONDON, Jan. 27—Foreign Secretary Anthony Eden declared in the house of commons today the British government confidently expected Argentina's breaking off diplomatic relations with the axis would be followed by immediate and effective action against the whole Nazi spy organization.

School Bond Drive Total Now $3,093

A total of $3,093.75 was reached today in a "Buy a Plane" bond drive being carried out at Harding High school. Sales today amounted to $1,193.75. The 10-week drive will be terminated March 9, according to Miss Isabelle Stump, faculty advisor. A goal of $15,000 for purchase of an army training plane, has been set for total sales in the period. Persons interested in helping the school, whether they have children enrolled or not, are welcome to purchase their bonds through school salesmen.

The committee from the student council, of which Charles Elliott is president, is composed of Arlene Hill, chairman, Frank DeSanto, Elizabeth Kerns and Bob England.

FIRE HITS SOLDIERS HOME AT SANDUSKY

By The Associated Press

SANDUSKY, O., Jan. 27—Fire of undetermined origin early today destroyed a power plant and damaged two other buildings at the Ohio Soldiers and Sailors Home here, causing damages estimated at $25,000 and plunging the institution into darkness for several hours.

One death was attributed indirectly to the fire, when George White, 52, of Cleveland, a resident of the home, died of a heart attack while assisting firemen. Coroner E. C. Wiegand said excitement induced the fatal attack.

Starting shortly before midnight in the power plant, 40 feet from a dormitory housing veterans, the blaze destroyed the building and engines and generators which supplied power and light for the 26 buildings. Flames spread to a nearby laundry and a building being readied for a new power plant, and both were partially destroyed.

Capt. Don Wheeler, commandant of the home, said the entire institution recently was equipped with new electrical wiring.

Virtually all of Sandusky's fire fighting equipment was called into action, battling to protect nearby dormitories, when a strong wind threatened to carry the blaze into the living quarters.

The home has a membership of 650, Capt. Wheeler said, of which 150 are officers and operating personnel.

COURT RULES AGAINST ELECTION APPEAL

By The Associated Press

COLUMBUS, O., Jan. 27—The Ohio supreme court late yesterday denied Republican Arthur H. Williams' motion to contest the election of Ralph W. O'Neil, Democrat, as mayor of Youngstown.

The Mahoning county common pleas court had dismissed Williams' petition on the ground he had not signed the petition O'Neil had filed irregularities in the balloting.

The supreme court's majority opinion, in a four to three decision, held that in an election contest action the petition has to be signed either by 25 voters or by the defeated candidate. The petition had been signed by neither.

Judges Roy H. Williams of Sandusky, William L. Hart of Alliance and Charles Bell of Cincinnati, all Republicans, dissented and held Williams should be allowed to contest the election.

Trumbull county courts were upheld in a ruling that the city of Youngstown had forfeited its rights to 114 acres of land in Mahoning and Trumbull counties left it by the late Henry H. Stambaugh.

The tract a bequest for park and playground purposes, was willed the city on condition the municipality extend a highway through it. Instead, the city converted the land into a golf course and did not build the highway.

Inasmuch as the city had failed to carry out terms under which it accepted the land, the courts held the property reverted to the Stambaugh estate as provided in the will.

Before his death Mr. Stambaugh, whose bequest is involved in the Youngstown court case, operated extensive land holdings in the Hardin county onion marshes.

Admiral Sir John Cunningham, allied naval commander-in-chief, in the Mediterranean, in a congratulatory message to Lowry, declared "now that the Army has been safely established ashore our task is to keep it supplied. This I am sure will be accomplished with the same success as the first stage of the invasion."

Allied light bombers struck at Frosinone and a bridge near Atina. Two planes were lost in the operations.

Stimson Sees Hard Fighting Near Rome

By The Associated Press

WASHINGTON, Jan. 27 — A heavy battle probably will develop south of Rome as the Germans attempt to drive the allied amphibious forces which landed at Nettuno back into the sea, Secretary of War Stimson predicted today.

So far, the position of the allied forces is favorable and enemy opposition has been extremely weak, he said. But he added there is every reason to expect violent German reaction in an effort to save their communications between Rome and the southern front in Italy.

The landing last Saturday, Stimson told a news conference, apparently achieved a complete tactical surprise. There was no opposition on the beaches—the critical phase of any landing operation—and the only casualties in the initial phases came from exploding land mines, the war secretary reported.

Where the Germans will get the troops to lauch a heavy counter-attack is not quite clear, Stimson said, but some of them probably will be drawn from reserve garrisons in northern Italy and some may even be pulled off the southern battle line where the Nazis are trying to stem the 5th army's advance toward Cassino.

It is conceivable the Nettuno landings and expansion of that beachhead may force the enemy to abandon its present southern line, he said. But it is still much too early to predict a disastrous defeat for the Nazis and "it is sufficient to note that our present position is favorable."

The installation was conducted by Mrs. Villa Neidhart, marshal, assisted by Mrs. Charlotte Rush, Mrs. Helen Louise Likens, Mrs. Mary Salsbury, Mrs. Ruth Clarke, and the past matrons of Vera chapter No. 84 Caledonia Eastern Star.

Grand officers present were Mrs. Meta Sullivan, worthy grand matron; Mrs. Edith Conger, grand conductor; Mrs. Berina Moore, grand Ruth, Mrs. Zella Watkins, grand warder, and Miss Mary Margaret Harshfield, deputy grand matron.

The 1945 meeting will be held in Marion. Chapters from Union, Logan, Delaware, and Marion counties make up district No. 11.

SIMPLIFIED FORM, MORE TAXES COMING

By The Associated Press

WASHINGTON, Jan. 27—The treasury probably will suggest next spring that congress begin work on the simplification of tax forms but the "joker" in the request is expected to be a demand for another whopping revenue bill. Even as the pending measure was about on its way to the White House, department officials pointed significantly to President Roosevelt's recent notation of a need for more taxes. The treasury disagrees strongly with both the senate and the house about the potential yield of the measure now designed to produce $2,275,000,000 and the treasury new demands are expected to approximate its recent bid for $10,500,000,000.

—Baruch Bid—

Bernard Baruch, President Wilson's economic advisor and head of the World war I war industries board, will be asked to head the staff of the new house economic policy and planning committee. Said Chairman Colmer (D-Miss): "I know of no man better fitted for the job." The committee was set up yesterday to get the country back on a peacetime basis when the time comes.

—Service Vote—

Administration senators are seeking quick action on a federal service ballot to offset a possible week-end delay. At least 15 members are scheduled to leave the Capitol after today's session. With that number gone, failure to get a vote today probably would delay final action until next week.

Mt. Vernon Cagers Next Harding Foe

[illegible] Presidents [illegible] even notch the [illegible] catch is. Harding is pretty [illegible] in the surprise department [illegible] —as Friday's 56 to 47 upset of Ashland attests. Mt. Vernon will have to stage a decidedly better performance tomorrow night than has been its custom this N. C. O. season to blast the Presidents' crown hopes.

When the Bobyetmen and their Jackets met for the first time this season (Dec 17) at Mt. Vernon, the Mounties actually were being carded as favorites because of their more impressive showings against non-league teams. But the Prexies walked off with a 36 to 30 win in the N. C. O. opener.

Harding Improves

There's no doubt that Harding has improved considerably in all-around play since that first engagement with the Jackets. After being taxed to the limit to squeeze out a six-marker triumph over Mt. Vernon, Harding was bounced by the Bucyrus Redmen, 34 to 29, for the locals' lone league loss of the campaign. But, after that, the Presidents began [illegible] Bucyrus Friday night 45 to 40.

[illegible] Harding has no player who can match the performance of Tarr. Fritz Guy and Chuck Fazio come the closest with 36 points in five games. This ties them for tenth position in scoring. Rex Kilbourn, Harding forward, has 32 and Guard Elvin Beach 18.

Center Fazio ranks as the top Harding point-man in all games thus far with 61 markers. Guy has 51, Stew Young 35, Kilbourn 36, Bill Williams 22 and Beach 25.

Following tomorrow night's clash with Harding, Mt. Vernon keeps busy with a contest with Delaware St. Mary Saturday on the Jacket floor.

The Harding Vice Presidents will compete in their second game in three nights when they tackle the Mt. Vernon junior varsity team in a preliminary to tomorrow night's tussle at 7 o'clock. Joe Petrach's jayvees defeated the Junior Jackets, 26 to 24, in their first 1943-44 meeting. Ralph Weber's last-minute goal decided the game in the Vice Presidents' favor.

The varsity clash is scheduled to get under way at 8 o'clock. Adult tickets for the game may be purchased at Markert and Lewis clothing store on East Center street.

The killer whale is reputed to be one of the fiercest fighters in the world.

Wrestles Tonight

A former world's light heavy weight champion, Paul Bozell will make his appearance tonight at the Marion Armory when he meets another top star, Angelo Martinelli in one of the semi-final bouts.

The two hour main event is between Gorilla Grubmeir and Buddy Knox. This match should be one of the roughest and most hotly contested bouts seen in Marion.

Starting at 8:30 Angelo Savoldi will wrestle Don Serian, former concert singer. All matches are for the best two out of three falls. Prices—Gen. 50c. Ringside 75c. Kids 25c. Reservations can be made after six o'clock by calling the Armory.—Adv.

Denison Cagers Keep Top Spot in Ohio Conference

By The Associated Press

Denison University remained on top of the Ohio Conference parade [illegible] by trouncing Ohio Northern 62 to 47, and Bowling Green University [illegible] by trouncing Ohio Wesleyan 66-29.

In chalking up its 11th victory in 12 starts, Denison sprang into an early lead and led at the half-way mark 45-22. Coach Gerald [illegible] used 14 men.

Jay Jo the [illegible] scoring [illegible] Ralph [illegible] Ohio Northern guard, [illegible] with 19.

At Bowling Green, Don Otten paced the Bee-Gees to their 15th victory in 16 starts by scoring 12 points. The winners were out in front 28-13 at half time.

Bowling Green's athletic department announced it would play a double-header Saturday night at Ada, meeting both Bluffton and Ohio Northern.

The Bee-Gee's, beaten only by Great Lakes Naval Training Station at Great Lakes, will use largely second string players.

Both Bluffton and Ohio Northern are composed of civilian players, and both schools are coached by B. A. Barckey—a wartime measure so that both institutions could continue the cage sport this winter.

British 'Harvest' Their Game

(In the following story Lieut. Grover Hall, Jr., former associate editor of the Montgomery (Ala.) Advertiser, gives a picture of what it's like to hunt in England these days. Hall is an Eighth Airforce Public Relations Officer at a fighter station.)

By LT. GROVER HALL, JR.

AN EIGHTH AIRFORCE FIGHTER STATION IN ENGLAND—The American G.I. and his officers have taken to the British fashion of hunting with the same ease as they have taken to darts, tea, warm beer and most of the other institutions and folkways.

Soldiers here readily accept the fact that hunting is not necessarily where you find it as it is in the States.

Back home, if Farmer Dickson says "What th'———can't you see the 'Posted' No Hunting' sign?" you blandly say you didn't, and ain't that the prettiest job of terracing you ever saw. That placates him.

Not so here. Farms are small, land more precious than anything save privacy. You just don't hunt a man's land without his leave. A directive from the Colonel's office says so.

The British treat game as a crop. Shooting game is the same as "harvesting." What you have bagged you lay before him and probably he'll ask you to take some of it with you. But if the landowner doesn't make the offer, it in no way marks him as a crumb.

You go to the fields with guns, sticks and ferrets. The ferrets take the place of the rabbit dog. On this Thunderbolt fighter base the Master-of-the-Ferrets is Sergeant Arnold Camp of Arkansas.

Arnold keeps his myopic little demons in the hangar and tries to feed them things that remind them of rabbits. Along a hedgerow Camp finds a rabbit hole and takes the ferrets from a soap box.

"Hop to it, you little———!" Camp exhorts, placing them in the mouth of a hole.

The ferrets scurry in. Presently you hear a series of high-pitched squeaks emanating from the burrow.

That means one of two things—the ferret has got his squirrel teeth well hooked into the hide of B'rer Rabbit or he has a shaky hold.

If it is the former, the ferret will drag the rabbit out by whatever leg he has hold of. If it is the latter, the rabbit goes charging out the other end of his invaded tunnel and the meadow echoes with a barrage from the hunters' guns.

At the end of the hunt you return to the barn yard to thank your host, Farmer Sibley, for a fine outing.

You lay the game before him on the ground and wonder how the big grey bird would taste: it is just like our doves only it is the size of a white King Pigeon and is called a pigeon.

Like any farmer, Mr. Sibley wants you to see his barn.

"This barn," he says, "is made entirely of timber from a sailing vessel. It is 300 years old. In times past it was the custom to dismantle ships and use the timber for barns. And when they left the farm, they likely took the barn with them."

In pre-war days Mr. Sibley operated three butcher shops in London.

"My health has improved out here except now and then I get attacks of malaria. Picked it up in the last war in India."

Finally he came to the point:

"Take what you will of that game."

Lima-St. Gerard To Seek Revenge for St. Mary Loss

Lima St. Gerard's Parochials defeated only by Marion St. Mary in fifteen 1943-44 contests, will try to prove that lone loss was all a mistake when they battle the local Irish on the Lima court tonight. Game time is 8 o'clock. No reserve game between the two schools will be played but it is expected that a preliminary between two Lima outfits will be staged.

One of most gratifying St. Mary victories, seven of which adorn the Irish slate completed thus far, was the 35 to 29 upset win over a confident St. Gerard squad at the Edison gym here three weeks ago. That setback snapped the Limans' win streams at ten. However, since then St. Gerard has built another triumph-string, currently leading four in succession. Indications are that this record will not be blemished with another St. Mary upset tonight.

St. Gerard rules the slight favorite because of its vastly superior won-and-lost mark, which includes victories over such highly-regarded teams as Lima St. John, the Kenton Wildcats, and the 1943 champions of Allen county. The Lima Parochial five has copped 14 wins while losing only one. St. Mary, meanwhile, has seven wins and five losses to its credit.

Coach Lane McCrate's Irish have been operating in interscholastic competition at a court-burning clip recently, tonight's game being the third St. Mary encounter in five days. This rate is bound to have an effect on the efficiency of the Irishmen but Coach Lane McCrate's charges have of late shown unexpected physical stamina in trampling taller, huskier foes. This tip-top physical shape might very well mean the second St. Mary win over the Limans tonight.

The McCratemen displayed competent defensive play Tuesday night in winning from Fostoria St. Wendelin, 35 to 22. Offense took a back seat to the heads-up alert defensive work of the Irish quintet. In previous games, the Irish had been much the better offensive ball club, rolling up 48 points in losing to Lima St. Rose and garnering 58 to Tiffin Calvert's 30 Saturday night.

While the Irish varsity team is engaging St. Gerard out-of-town tonight, the Irish junior high school team will be tussling with the Edison intermediates on the Edison floor. Dan MacDonald is head coach of the St. Mary junior high floormen while Ed Cooney mentors the Edison lads. Starting time is 7 o'clock.

Martel High Cagers And Alumni To Play Tuesday

Martel High school cagers will meet alumni teams in two games scheduled for Tuesday night at the Martel gym. The first contest will be between the Martel varsity and a team of alumni, who are graduates of the last four years. A second game will be played between two teams composed of graduates of more than four years ago. The contests are an annual event of Martel school's basketball season.

Mustaches are banned for enlisted men in the British Navy: they must either wear beards or go clean-shaven.

BOWLING RESULTS

Team No. 4 stepped into a first-place tie in the Marion Steam Shovel league with a three-game victory over Team No. 8, previously in undisputed possession of the top spot, at the Palace Recreation Center Tuesday night. A three-way tie exists for the lead in the recently organized Army Air Corps loop following results of contests in Tuesday kegling on the Palace lanes.

Number one single game in the Shovel circuit was the 213 of Babcock and the leading series mark was K. Little's 570. In the Air Corps league, P. Schockney had a 208 for top line and 569 for series honors.

Other high one-game scores rolled by Shovel leaguers were Eikenbary 211, Brewer 202, K. Little 204, and R. Little 201. Rosenberger's 162 count was best for feminine keglers of the mixed Air Corps league.

Standings and individual three-game-series totals in the two Tuesday night leagues follow:

INDIANS AND REDS HIT BY ARMY DRAFT

By The Associated Press

The Cincinnati Reds and the Cleveland Indians—already hard hit by the Army draft—had more bad news today.

In Clifton, N. J., Johnny Vander Meer, major league baseball's only pitcher of successive no-hit, no-run games and ace of the Cincinnati mound staff, reported he was found acceptable to Army physicians after three days of examination at the Newark induction center and in New York hospitals.

He said he would report to the Newark induction center today to take the oath and get the usual induction furlough.

The southpaw ace once was classified 4-F because of stomach disorders.

At St. Paul, Minn., Mickey Rocco was reclassified 1-A by his draft board.

Draft board officials said the Cleveland first baseman would take his pre-induction examination about the middle of February and if accepted would be in the Army by mid-March.

His reclassification reduced the Indians' infield to four—Manager Lou Boudreau, Russ Peters, Jimmy Grant and Ken Keltner.

Ray Mack, second baseman, said Tuesday he preferred to retain his war plant job—and his 2-B status—by staying out of baseball this year.

PAY RAISES ORDERED FOR HOSPITAL STAFFS

By The Associated Press

COLUMBUS, O., Jan. 27—Pay increases for about 1,600 low-salaried employes of 12 state hospitals were announced today by Welfare Director Herbert R. Mooney, who expressed hope the new schedule would enable mental institutions to fill approximately 400 worker vacancies.

Mooney said after Feb. 1 both men and women would be paid the same scale ranging from $60 to $75 a month with complete maintenance. In addition, ward attendants may receive $5 a month above the maximum.

The current scale ranges from $57 to $72 a month for men and $51 to $62.50 for women. Increases under the new schedule may range from $3 for men to $12.50 for women. Mooney estimated increases for women might average $10 to $11 a month.

"At the last meeting of the superintendents of state hospitals," Mooney said in a formal statement, "it was unanimously agreed that the salary paid to men and women attendants should be the same, because the greatest difficulty that the mental hospitals have been experiencing is in obtaining attendants, especially women."

State hospitals affected by the increases include those at Athens, Massillon, the hospital for epileptics at Gallipolis and the feeble minded hospitals at Columbus, Orient and Apple Creek.

Mooney said the new schedule would be in addition to the 10 per cent legislative increase granted those on payrolls last June 24.

Mooney estimated the wage increases would approximate $150,000 annually and said they were possible because of balances remaining from 1943 welfare department appropriations.

Rich Bowling Classic Opens This Week-End

By The Associated Press

CHICAGO, Jan. 27—The heaviest trundling of the 1943-44 bogling season gets underway in Chicago this week-end when a galaxy of kegling stars, both men and women, begins firing in individual classic tournaments for big league money.

There are big bundles of cash for the top scorers in the events and name bowlers from every section of the country will be competing for a part of the many prizes which total more than $35,000.

Bowling's richest tourney, the 31st renewal of the Petersen classic, is the major event and some 1,000 bowlers of the record 1,280 entered will take the lanes beginning Saturday and continuing through Feb. 6.

Byrnes also surprised as a batter, hitting .280 in 129 games to lead the Browns' outer gardeners. The southpaw swinger batted only .254 in the American association in 1942.

Vernon Junior High Five Wins from Central, 34-13

Vernon Heights Junior High school and Central Junior high split a cage contest last night at the Armory, Vernon winning the varsity tilt, 34 to 13, and Central taking a reserve game, 26 to 17. Central and Edison are tied for the lead in the Junior high league, Central having lost two games and Edison one. Central has played one more contest than Edison.

Central reserve players were Russell, Mathias, Coss, Rex, Jinden, Cudd, Dill, Booker and Pierce. The Vernon lineup included Ballinger, Estes, Andrews, Ahrens, Swerlin, Thomas, Roest, Hayes, Nichols and Nash.

AKRON TREASURY SHORTAGE $182,000

By The Associated Press

AKRON, O., Jan. 27 — Wilbur C. Wieland, 43-year-old deputy Summit county treasurer charged with embezzling $182,000 in public funds, offered today to help state examiners complete an audit of records containing a shortage that led to his arrest.

The county official pleaded innocent when arraigned yesterday before Municipal Judge Abner H. Zook and was bound over to the county grand jury under $7,500 bond. County Treasurer C. A. Frank signed the affidavit for his deputy's arrest and Prosecutor Alva J. Russell reported Wieland in an oral confession said the embezzlements extended over a period of six or seven years and added that a good share of the money went into investments that "didn't click."

The arrest came as six examiners under State Auditor Joseph T. Ferguson's supervision scanned the treasurer's records.

Defense Counsel George Hargreaves told Judge Zook his client "is cooperating in every way with the auditors to get this matter cleared up." An embezzlement conviction carries a possible one to 10 year penitentiary sentence.

Pitfalls of Love

By ADELE GARRISON

"YES, I know," Jack said heavily and with bitterness in his voice, "and I'll be safely on the high seas."

"I don't know what your plans are now," I told him personally, remembering his own experiences of the first World War, the consequences of which had so warped his life and Katharine's during the lost years.

Instructions

But we haven't time to discuss anything," I said. "I can't go across the way, Adams is coming over also, and I'll send him in here first, and he will tell you Katherine. Where to find things, and you said Dr. Tavenner can decide what rooms you need to use. I'll also tell Adams, Jack, to explain the layout here to you, and what Father has instructed him to do here. Ronald, will you please come with me now, I want to have you over to Halloran."

I did not look again at the other three, for I knew that the sooner they were left alone with the task before them, the better it would be for Jack. With my hand laid lightly on Ronald's arm, I went back into the sitting room, closing the door after me, and starting visibly as Noel, apparently a stunning looking army officer of middle age, rose from a chair at my entrance and gave me a mock salute, while Carolyn rushed from her chair in the corner to Ronald's side, and laid her hand upon his arm. He started in surprise, looked at her keenly, and then at her cry of, "Oh, Ron!" put his hands on her shoulders and held her off from him.

"Carol! By all that's holy!" he exclaimed. "I never would have known you!"

Carolyn Gloomy

"I hope nobody else does," Carolyn said gloomily, then darted a quick apologetic look at me. "Don't get me wrong, Auntie Madge," she said, "I'm not going back on my word."

"I'm glad of that," I told her dryly. Then I crossed to Noel's side.

"How long has Halloran been working on Mary?" I asked.

"Several minutes," he answered. "He put me out in record-breaking time, for my face isn't known to the gang the way Mary's is."

"But he did a good job on you just the same," I commented. "Now, as soon as I've talked to Ronald a minute, you, Carolyn and I will go over to the restaurant. Ronald and Mary will join us as soon as Halloran has finished with Ronald. We will save a table for them. As you and Ronald are apparently officers, that will be a natural proceeding."

"You have every detail planned, haven't you?" he asked.

"I have to have," I told him with a smile, and went back to Ronald.

Questions Ronald

"What did Aunt Lillian tell you when she had you get out of the car?" I asked.

"She said she would tell the guards to get away from the restaurant as fast as possible, but she told me to come down slowly."

"Was she nervous," I queried.

"I suppose she was inside," he answered, "but to all appearances she was perfectly composed. How could she be!" he broke off unsteadily.

"That's because she has a job to do," I told him. "She's always like that in an emergency."

"But Aunt Madge," he said breathlessly, "do you realize that in a few minutes we'll actually see Marion"

"Of course I realize it," I said, purposely tinging my voice with acerbity, "But if we don't keep cool, and our minds on this job, we're likely to miss seeing her."

"What do you mean!" he asked, obviously frightened.

Ticklish Situation

"I mean," I said slowly, "that the situation over at the restaurant will be a most ticklish one. Everything will depend on timing and on perfect control. If there were a hitch, Marion suspected anything wrong too soon, there may be grave trouble. Not one of us must betray by even the slightest sign of an emotion that we are at all interested in her."

"I see what you mean," he said, and I will do my part."

"That's a good lad!" I approved. "Now, as soon as Mary comes out, you go in and have Halloran fix you up. You will emerge another officer, and the minute you are made up, bring Mary over and join us at the table we will reserve for you. Just act as if you were in any restaurant for a dinner engagement."

"I'll do my best," he said, and then I went over to Carolyn.

"Come now, dear," I said. "It's time to start."

I beckoned to Noel, and he came over to us, Adams at his elbow.

"We're going now?" Noel queried, and I nodded.

Then Adams spoke with decision. "You must not go out the front way," he said.

YOUR HEALTH

By LOGAN CLENDENING, M. D.

Teeth

The wise old women used to warn that the youngest child had the poorest teeth. That fitted in with their general idea that the youngest was the runt of the family, the weakest, physically and mentally, the scrapings of the pot.

Modern nutrition has made a revision in these age-old ideas. Dr. Harold Beck, of Boston, has made a statistical study which proves that the youngest child has just as good teeth as the others provided the mother gets a good prenatal diet with plenty of calcium.

He studied 198 five year old children, 106 being first born and 92 fourth born. The difference in the number of decayed teeth was negligible, a difference of less than two decayed teeth was found between the first born and later born children.

Through an adequate diet the mother can furnish a sufficient calcium reserve to carry the infant through the first 10-month, or shock, period of life.

Dr. Beck found that 64 per cent of the mothers of children having good teeth drank three or four glasses of milk daily during the expectant period. Milk furnishes the calcium reserve mentioned above.

Furthermore poor calcification of teeth results from lack of Vitamin D; children with healthy teeth were also found to have been fed cod liver oil, the most convenient and cheapest medium in which to give Vitamin D regularly during the first year and up to the fifth year of life.

That these precautions are necessary is shown by studies of the selective service men, impaired and missing teeth being the leading reason for rejection. And the age of these applicants indicates that the defects began in early life. According to the statistical bulletin of the Metropolitan Life Insurance Co., defects occur in children's teeth at the rate of 1 1-2 tooth surfaces per child per year.

The results are that 25 per cent of Army applicants reaching the age of 18 have already experienced decay to some extent in their permanent teeth.

In a group of employees 17 to 19 years of age there was an average of 1.9 teeth missing among the girls and 1.6 among the boys. By the time a group has reached the 25 to 29 year period the figures are twice as high, the females always having more missing teeth by a small margin.

This is simply th result of neglect, exaggerated fear of the dentist, reluctance to spend money on teeth, and ignorance. First appearance of the serious dirtunity that goes with imperfect dental arches.

One specific example of ignorance which I have repeatedly mentioned is neglect of the first permanent tooth, the first lower molar. It comes in last in the row behind the baby teeth, at about the age of six. Parents are apt to think it is another baby tooth. It is very apt to decay, and should be tended to immediately. Its loss imperils the whole arch.

QUESTIONS AND ANSWERS

R. N.: Is it important for a girl 13 to wear stockings in cold weather? She says if she wore them the other children would make so much fun of her.

Answer: I confess that this is one of the habits of the younger generation that I do not understand. It gives me a chill to see them. I should think sheer discomfort, to say nothing of the danger of chilblains and livedo, would drive them to cover their skin. Perhaps the way to handle it would be to tell her that going without stockings will make her legs so ugly she will never get a husband.
